1. GENERAL INFORMATION

Global Allocation Fund (the “Fund”) is structured as an open-ended investment fund (*beleggingsfonds*) and a fund for joint account (*fonds voor gemene rekening*) organised and established under the laws of the Netherlands and was established in August 2017. The Fund is not a legal entity (*rechtspersoon*) but a contractual arrangement *sui generis* between the Fund Manager, the Legal Owner and each of the participants separately, governing the assets and liabilities acquired or assumed by the Legal Owner for the account and risk of the participants. The Fund commenced operations on 2 October 2017. The Fund has a registered office at Gustav Mahlerplein 3, Symphony Offices, 26th Floor, 1082 MS Amsterdam, the Netherlands.

The Fund has two classes of participations, Class A participations and Class B participations. The sole difference between the different classes is that Class A participants pay a lower management fee, due to the fact that the Delegate waived its delegation fee that is payable out of the management fee for this Class. Only investors that are a client of the Delegate are issued Class A participations against each such participant’s individual subscription. Other participants subscribing will be issued Class B participations, unless otherwise determined by the Fund Manager in its sole discretion. As at 30 June 2018, both Class A participations and Class B participations are in issue.

The investment objective of the Fund is to achieve long term capital growth. To achieve this, the strategy of the Fund is to invest in a diversified portfolio of investment funds (including hedge funds or other (alternative) collective investment vehicles worldwide), listed investee companies, stocks, debt instruments, futures, forward currency contracts and in commodity related instruments including, but not limited to ETF’s, ETP’s, REIT’s, index funds and structured products.

The Fund’s investment activities are managed by Privium Fund Management B.V. (the “Fund Manager”), with the administration delegated to Custom House Fund Services (Netherlands) B.V. (the “Administrator”).

The Fund had no employees during the period ended 30 June 2018.

The Fund Manager is in possession of an AFM (Stichting Autoriteit Financiële Markten) license as referred to in article 2:65(1)(a) FSA, and as a consequence may offer the Fund to professional and non-professional investors within the Netherlands. The Fund Manager is subject to conduct of business and prudential supervision by the AFM and the Dutch Central Bank (“De Nederlandsche Bank”).

The AFM license of the Fund Manager has been issued prior to the implementation of the AIFMD in the Netherlands, and was automatically converted into an AIFMD license (2:65 Wft new) by the AFM on 22 July 2014, in accordance with the Netherlands AIFMD implementation schedule.

The interim financial statements have been authorised for issue by the Fund Manager on 16 August 2018.

2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES

Basis of preparation

The interim financial statements of the Fund have been prepared in accordance with reporting principles generally accepted in the Netherlands (“Dutch GAAP”) and the statutory provisions contained in Part 9, Book 2 of the Dutch Civil Code and Dutch Accounting Standard 394. The interim financial statements have also been prepared in accordance with the requirements of the Dutch Financial Supervision Act (“FSA”), which came into force on 1 January 2007.

The interim financial statements are prepared on a fair value basis for financial investments, except those for which a reliable measure of fair value is not available. Other financial assets and liabilities and non-financial assets and liabilities are stated at amortised cost or historical cost.

Overleaf is a summary of the accounting policies of the Fund.

Notes to the interim financial statements

2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES (*CONTINUED*)

Functional currency

The interim financial statements are presented in Euro (“EUR”), which is the Fund’s functional currency.

Recognition and measurement

An asset is recognised in the balance sheet when it is probable that future economic benefits of the asset will flow to the Fund and the amount of the asset can be reliably measured. A liability is recognised in the balance sheet when it is probable that an outflow of resources embodying economic benefits will result from the settlement of a present obligation and the amount at which the settlement will take place can be measured reliably.

Income is recognised in the income statement when an increase in future economic benefit related to an increase in an asset or decrease in a liability has arisen that can be measured reliably.

Expenses (including value added tax (“VAT”), where applicable) are recognised in the income statement when a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

Estimates

The preparation of interim financial statements in conformity with the relevant rules requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Fund’s accounting policies. If necessary, for the purposes of providing the view required under Section 362, subsection 1, Book 2 of the Dutch Civil Code, the nature of these estimates and judgements, including related assumptions, is disclosed in the notes to the interim financial statements in question.

Foreign exchange

Assets and liabilities denominated in currencies other than the EUR are converted to EUR at the exchange rates prevailing on the balance sheet date. Transactions in foreign currency are converted at the rates prevailing on the date of the transaction. Foreign currency exchange differences arising on translation and realised gains and losses on disposal or settlement of monetary assets and liabilities are recognised in the income statement.

Classification of participations

The participations of the Fund are classified as equity. These participations are recognised and measured at the redemption amount. Any distribution of equity is recognised through equity.

Basis of valuation - policies in preparing the balance sheet

Financial investments are initially measured at fair value which is the fair value of the consideration given or received. Financial investments are subsequently re-measured at fair value.

The Fund measures the fair value of any security which is listed or quoted on any securities exchange or similar electronic system and regularly traded thereon using its last traded price on the relevant business day. If no trades occurred on such day, it will be valued at the closing price on the previous business day.

Gains and losses arising from fair value changes are calculated based on historical cost and recognised in the income statement as ‘realised losses on investment in equities’ and ‘unrealised gains on investment in equities’.

Receivables and prepayments

The value of accounts receivable and prepayments will be deemed to be the full amount unless it is unlikely to be paid or received in full. Appropriate allowances for estimated irrecoverable amounts are recognised in the income statement when there is objective evidence that the asset is impaired. Cash is carried at face value.

Payables and accruals

Payables and accruals are included at fair value.

Notes to the interim financial statements

2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES *(CONTINUED)*

Cash

Cash comprises cash on hand and demand deposits. Cash also includes short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Statement of cash flows

The statement of cash flows is prepared according to the direct method. The statement of cash flows shows the Fund's cash flows for the period divided into cash flows from operations and financing activities and how the cash flows have affected cash funds.

For the purposes of the statement of cash flows, financial instruments at fair value through profit or loss are included under operating activities. Cash flows from financing activities include proceeds from subscriptions and payments for redemptions of participations of the Fund. As the nature of the Fund is to invest in financial instruments, all cash flows related to investments are classified as cash flows from operating activities.

Participants' equity

All references to net asset value ("NAV") throughout the interim financial statements are equivalent to participants' equity.

Principles for determining the result

The Fund recognises financial assets and liabilities on the date it becomes a party to the contractual provisions of the instrument. A regular way purchase and sale of investments is recognised using trade date accounting.

The changes in value of the investments held by the Fund are accounted for in the income statement.

Dividends from equities are included at the date when they are declared. Dividend withholding tax is presented gross on the income statement.

Income and expenses are accounted for in the income statement on the accrual basis.

Tax position

The Dutch tax authorities have granted a ruling confirming that the Fund is tax transparent. This implies that the Fund is not subject to corporate income tax. Distributions made by the Fund (for example in case of redemption by a participant) are not subject to dividend withholding tax.

14. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS

The investment objective of the Fund is to achieve long term capital growth. To achieve this, the strategy of the Fund is to invest in a diversified portfolio of investment funds (including hedge funds or other (alternative) collective investment vehicles worldwide), listed investee companies, stocks, debt instruments, futures, forward currency contracts and in commodity related instruments including, but not limited to ETF's, ETP's, REIT's, index funds and structured products.

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market prices whether those changes are caused by factors specific to the individual security or its issuer or factors affecting all securities traded in the market. Market risk comprises market price risk, interest rate risk and currency risk. The Fund's market risk is managed through diversification of its investments.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. 	Fair value EUR	% of participants' equity

It arises from cash and other receivables. The carrying values of financial assets (excluding any investment in equity instruments) best represent the maximum credit risk exposure as at the reporting date and amounts to EUR 1,732,635.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities.

The Fund's Prospectus provides for the weekly creation and cancellation of participants and it is therefore exposed to the liquidity risk of meeting participants' redemptions. The Fund's policy allows for redemptions on a weekly basis and notice of 3 business days must be provided.

The Fund's listed securities are considered to be readily realisable as they are listed on recognised exchanges.

The Fund's other liabilities are short-term in nature.

The following schedule shows the reconciliation between the participants' equity in accordance with the Prospectus and the participants' equity as determined in accordance with Dutch Accounting Standard 210 ("Dutch GAAP").
