## Management Report

### Review 2018

The Multi Strategy Alternatives Fund (MSAF) returned a disappointing -5.51% in 2018. The benchmark, the HFRX Global Hedge Fund Index (benchmark as of December 1, 2018), returned -6.73%. The former benchmark of the fund, the HFRI FoF Conservative Index, returned -1.06% in 2018. For the MSAF 2018 proved to be a challenging year. The main investment objective of the Fund is to achieve long term growth while preserving capital.

What went wrong in 2018? Markets started the year full of optimism. The US economy delivered stellar performance, buoyed by tax cuts, which caused a surge in both growth and corporate earnings. The unemployment rate hit an almost 50-year low. The upward drift in inflation was gradual, so there weren't many surprises from the Fed, which hiked rates by 25 basis points per quarter. Global quantitative easing wound down, beginning a reversal of the great search for yield. This challenged fixed income across the board, but not dramatically so. What proved considerably more disruptive in 2018 was US foreign policy. Undeterred by the threat of higher costs for US consumers and businesses, Washington ramped up trade tensions. It seems that there is considerable political appetite among the US electorate, and as a result both Republicans and Democrats, to reconsider US trading relationships, with China very much at the eye of the storm. This trade aggression hit the Chinese economy at a point when growth was already slowing rapidly in response to tighter policy from Beijing. Emerging markets have thus endured the double whammy of slowing growth in China and rising borrowing costs as a result of higher US interest rates. Emerging market equities and debt took a significant hit in 2018. Europe has been caught in the crossfire. Although early tensions between the US and EU over auto tariffs have dissipated for now, European demand has been battered by a downturn in global trading.

In 2018 the majority of the underlying managers of MSAF were loss making with the exception of a market neutral equity manager, a US credit long/short manager and an event driven manager. Especially the CTA fund we were invested in faced a very difficult year during 2018. During the year a global macro fund, a US equity long/short manager with a lower net exposure and a US Equity Long/Short manager with a larger gross and net exposure were added to the portfolio of MSAF.

During the year also a number of positions were redeemed. This included; a market neutral equity manager, both multi manager funds, a global absolute return manager and the mentioned CTA manager. The reasons for redeeming the individual positions varied and included; disappointing performance, cloudy outlook for the strategy and the availability of high prospect alternatives. As of December 31, 2018 the portfolio of the MSAF consists of 11 underlying funds. Direct FX exposures within the fund were hedged during the full year of 2018 and we expect to continue to do so.

### Outlook 2019

In 2019, Economic conditions are beginning to return to more "normal" settings: GDP growth is slowing toward potential, rates are rising toward neutral, and volatility is reverting to mean. Tightening financial conditions and the waning boost from fiscal and monetary policies may be contributing to a US-led deceleration in global growth, albeit to a still healthy pace of expansion. Trend-like growth could re-assert its gravitational pull over the next few quarters. Headline rates of inflation globally may be driven in the short-term by developments in volatile energy markets. Underlying inflationary pressures still vary widely across regions, reflecting contrasting macro fundamentals and differing levels of slack left in the world's major economies. We expect developed market central banks to continue pursuing a strategy of gradual normalization, while retaining tactical sensitivity to macro developments. Measured increases in interest rates will now also be accompanied by a progressive unwind of global central bank net asset purchases: a move from quantitative easing to quantitative tightening. Global (geo) political uncertainties may be important drivers of both returns and volatility in the year ahead, as the market adjusts to trade uncertainties, spillovers from Brexit, and Italian budget risks. A combination of moderating global growth, late-cycle concerns, uncertainty around the timing and sequence of evolving central bank policies, and elevated geopolitical tensions is likely to remain a source of pressure points for investors. These risks create the potential for further spikes in market volatility.

We maintain a low beta and a low net exposure to both equity and fixed income markets, which did not work as we expected in 2018 because of the total de-risking of markets especially in December. We maintain our allocation to equity long/short and equity market neutral given increased dispersions across stocks and to maintain a low portfolio beta. We are also keeping an overweight position in event driven given the tailwind of a lower corporate tax rate, accommodating policy for foreign cash repatriation and significant corporate activity (M&A).

## Management Report (*continued*)

### General principles of remuneration policy Privium Fund Management B.V. ('Privium')

Privium Fund Management B.V. has a careful, controlled and sustainable remuneration policy which meets all the requirements included in the Alternative Investment Fund Managers Directive (AIFMD) and the guidelines on sound remuneration policies under the AIFMD (ESMA Guidelines). The remuneration policy is consistent with and contributes to a sound and effective risk management framework and does not encourage risk taking beyond what is acceptable for Privium Fund Management B.V.

The Board of Privium Fund Management B.V. is responsible for establishing the Remuneration policy. The Board of Privium Fund Management B.V. reviews the Remuneration policy at least once a year and the policy may be amended if circumstances warrant that. Remunerations at Privium Fund Management B.V. may consist out of a fixed salary (this may include a payment to cover certain expenses of staff members) and a variable remuneration. Privium Fund Management B.V. may reclaim all or part of the variable remuneration paid if (i) this payment was made on the basis of incorrect information, (ii) in the event of fraud by the employee, (iii) in the event of serious improper behaviour by the employee or serious negligence in the performance of his tasks, or (iv) in the event of behaviour that has resulted in considerable losses for the fund or Privium Fund Management B.V.

### Remuneration policy 2018

This policy is based on the situation as of December 31, 2018. The financial year of the Fund Manager ends on December 31 of any year. For some of the funds the compensation consists of both a management and a performance fee. In 2018 the aggregate costs for staff totalled EUR 3,946,370. The table below offers an overview of the remuneration at the level of Privium Fund Management B.V. Information per fund is not available. The Board of Privium Fund Management is being described as Identified Staff in senior management roles. All other staff members are categorized as identified staff outside senior management roles.

	Identified staff in senior management roles	Identified staff outside senior management roles	Total staff
Number of staff	2	26	28
Total fixed remuneration	€144,470	€ 3,714,487	€ 3,858,957
Total variable remuneration	€15,000	€72,413	€87,413
<b>Total remuneration</b>	<b>€159,470</b>	<b>€3,786,900</b>	<b>€3,946,370</b>

Privium Fund Management B.V. has delegated certain portfolio management duties of some of its funds to outside investment advisers ('delegates'). Remuneration of identified staff of delegates is not included in the table. The delegates are subject to regulatory requirements on remuneration policies and disclosures that are comparable with the requirements applicable to Privium Fund Management B.V. Reference to the remuneration of the delegates is included in the Prospectus and annual report of the funds concerned.

Variable payments to both identified staff members in senior management roles and identified staff outside senior management depend on the profitability of the company, the performance of the funds, extraordinary commitment to the firm, customer satisfaction, work according best practice ethical standards, and/or other performance/non-performance related criteria. In 2018 no variable payments regarding the Multi Strategy Alternatives Fund have been paid to any Identified Staff of Privium. Privium Fund Management B.V., the Fund Manager of the various funds, does not charge any employee remuneration fees to the funds, except for the Supermarkt VastGoed fund.

Employee remuneration is paid out of the management and performance fees (if applicable). In total 28 staff members were involved during (some part of) the year, including consultants and including both part-time and full time staff. None of the staff members have earned more than EUR 1,000,000 or more during the year 2018.

### Remuneration Investee Funds

The Multi Strategy Alternatives Fund invests in other Investee Funds. These Funds are managed by other Investment Managers. These Investment Managers are regulated and need to comply with the local legislation in the countries in which they are regulated.

## Management Report *(continued)*

### Remuneration Investee Funds *(continued)*

The Investment Objective and Investment Strategy of the Investee Funds are guided by a clear framework and should avoid any excessive risk taking. The Investment Managers of the Investee Funds each have remuneration policies in place as required by law. This both includes fixed and variable remuneration. In the audited financial statements of the Investee Funds these remuneration policies are explained in greater detail. Also on the websites of the Investment Managers these remuneration policies have been published.

### Risk management and willingness to take risks

In the table below we list the various risk to which investors in the Fund are exposed and we discuss the measures applied to manage these risks and their potential impact on the Fund's NAV's.

Sorts of risks	Risk hedged	Measures applied and expected effectiveness	Impact on 2018 NAV	Expected impact on 2019 NAV if risk materializes	Adjustments to risk management in 2018 or 2019
Manager Risk/Price risk	No	The Fund maintains investments in other investment funds (hedge funds). These funds are managed by external Fund Management companies. A rigid due diligence process is in place when investment funds are selected.	The Fund lost -5.51% in 2018. The Fund outperformed its benchmark which lost -6.7% (HFRX Hedge Fund Index USD).	Much will depend on the actual positioning of the underlying investment funds. However we expect that the selected investments funds will perform better than general equity markets over the long term. Especially measured on a risk/return basis.	No
Interest rate risk	No	The Fund has no interest bearing financial instruments except for cash at bank. Therefore the Fund is not exposed to significant interest rate risk.	None	None	No
Foreign Exchange risk	Yes	Direct FX risk is hedged within the fund.	None	None	No
Liquidity risk	No	Liquidity risk mostly has been mitigated by investing in positions that offer sufficient liquidity.	None	We would not expect a negative NAV impact if this risk would materialize.	No
Credit risk	No	Spare cash is maintained at ABN AMRO. ABN AMRO has an A credit rating (S&P credit rating) and we would reconsider the relationship if this changes.	None	None	No
Operational risk	No	This risk is mostly mitigated by having rigid operational procedures in place. Next to that duties and responsibilities are clearly divided between Privium employees. The same is applicable at the service providers of the several Privium Funds.	None	None	No
Counterparty Risk	No	This risk is mostly mitigated by selecting and maintaining relationships with top tier counterparties and service providers.	None	None	No
Leverage Risk	No	The Fund is not utilizing any borrowings to take positions. Because the Fund is hedging direct FX risk by using FX forwards, the fund is utilizing implied leverage. As of December 31, 2018 the leverage calculations according to the Gross method and Commitment method are as follows: Gross method: 110.01% and Commitment method: 99.93%.	None	None	None

## Management Report (*continued*)

### Control Statement

The Board of Privium Fund Management B.V. declares to have an AO/IB (Handbook) that meets the requirements of the “Wet op het financieel toezicht and the ‘Besluit gedragstoezicht financiële ondernemingen (‘Bgfö)’”. During 2018 we assessed the various aspects of the Privium operations as outlined in the AO/IB (Handbook). We have not identified any internal control measures that do not meet the requirements of Article 121 of the Bgfo and as such we declare that the operations in the year 2018 functioned effectively as described. During 2018 a number of independent service providers have conducted checks on Privium’s operations as part of their ongoing responsibility. No errors have been signalled.

Privium is updating its AO/IC (Handbook) on a regular basis as required by law. The 2018 update was completed in October 2018. During the fourth quarter of 2018 the external audit officer performed its annual due diligence on a number of internal procedures at the Fund Manager. These are mostly related to Compliance and Risk Management. The external audit officer has reported his findings to the Fund Manager in a report. No meaningful errors have been signalled.

## Notes to the financial statements

### 1. GENERAL INFORMATION

Multi Strategy Alternatives Fund (the “Fund”) is an open-ended investment fund (*beleggingsfonds*) for joint account (*besloten fonds voor gemene rekening*) organised and established on 30 July 2014 under the laws of the Netherlands. The Fund is not a legal entity (*rechtspersoon*), but a contractual arrangement *sui generis* between the Fund Manager, the Legal Owner and each of the participants separately, governing the assets and liabilities acquired or assumed by the Legal Owner for the account and risk of the Participants. The Fund commenced operations on 15 January 2015. The most recent Prospectus of the Fund was issued in October 2017.

The Fund may issue Class A participations, Class B participations and Class C participations. As at 31 December 2018, only the Class A participations and the Class C participations are in issue.

The investment objective of the Fund is to achieve long term growth by investing in a diversified portfolio of investee funds worldwide, predominantly hedge funds. When selecting investee funds, the Fund Manager will focus on fund managers that manage at least EUR 100,000,000 in the same strategy. The aim is to avoid illiquid strategies and illiquid investee funds.

The Fund’s investment activities are managed by Privium Fund Management B.V. (the “Fund Manager”), with the administration delegated to Apex Fund Services (Netherlands) B.V. (formerly known as Custom House Fund Services (Netherlands) B.V.) (the “Administrator”).

The Fund had no employees during the years ended 31 December 2018 and 2017.

The Fund Manager is subject to supervision by the AFM (Stichting Autoriteit Financiële Markten) and DNB (Central Bank of the Netherlands). On 22 July 2014, the AFM licence of the Fund Manager was automatically converted into an Alternative Investment Fund Managers Directive (“AIFMD”) licence by the AFM.

The financial statements have been authorised for issue by the Fund Manager on 21 June 2019.

### 2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES

#### Basis of preparation

The financial statements of the Fund have been prepared in accordance with the reporting principles generally accepted in the Netherlands (“Dutch GAAP”) including the guidelines for annual reporting (RJ) 615 and the statutory provisions concerning annual accounts contained in Part 9, Book 2 of the Dutch Civil Code. The financial statements have also been prepared in accordance with the requirements of the Dutch Financial Supervision ACT (“FSA”), which came into force on 1 January 2007.

The financial statements are prepared on a fair value basis for financial investments, except those for which a reliable measure of fair value is not available. Other financial assets and liabilities and non-financial assets and liabilities are stated at amortised cost or historical cost.

Below is a summary of the accounting policies of the Fund.

#### Functional currency

The financial statements are presented in United States Dollar (“USD”), which is the Fund’s functional currency.

#### Recognition and measurement

An asset is recognised in the balance sheet when it is probable that future economic benefits of the asset will flow to the Fund and the amount of the asset can be reliably measured. A liability is recognised in the balance sheet when it is probable that an outflow of resources embodying economic benefits will result from the settlement of a present obligation and the amount at which the settlement will take place can be measured reliably. Income is recognised in the income statement when an increase in future economic benefit related to an increase in an asset or decrease in a liability has arisen that can be measured reliably.

Expenses (including value added tax (“VAT”), where applicable) are recognised in the income statement when a decrease in future economic benefit related to a decrease in an asset or an increase in a liability has arisen that can be measured reliably.

## Notes to the financial statements

### 2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES (*CONTINUED*)

#### **Estimates**

The preparation of financial statements in conformity with the relevant rules requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Fund's accounting policies. If necessary, for the purposes of providing the view required under Section 362, subsection 1, Book 2 of the Dutch Civil Code, the nature of these estimates and judgements, including related assumptions, is disclosed in the notes to the financial statements in question.

#### **Foreign exchange**

Assets and liabilities denominated in currencies other than the USD are converted to USD at the exchange rates prevailing on the balance sheet date. Transactions in foreign currency are converted at the rates prevailing on the date of the transaction. Foreign currency exchange differences arising on translation and realised gains and losses on disposal or settlement of monetary assets and liabilities are recognised in the income statement.

#### **Classification of participations**

The participations of the Fund are classified as equity. These participations are recognised and measured at the redemption amount. Any distribution of equity is recognised through equity.

#### **Basis of valuation - policies in preparing the balance sheet**

Financial investments and financial derivatives are initially measured at fair value which is the fair value of the consideration given or received. Financial investments are subsequently re-measured at fair value.

The Fund measures the fair value of any security which is listed or quoted on any securities exchange or similar electronic system and regularly traded thereon using its last traded price on the relevant business day. If no trades occurred on such day, it will be valued at the closing price on the previous business day.

Gains and losses arising from fair value changes are calculated based on historical cost and recognised in the income statement as 'realised (losses)/gains on investee funds' and 'realised gains/(losses) on derivative financial instruments' or 'unrealised (losses)/gains on investee funds' and 'unrealised (losses)/gains on derivative financial instruments'.

The Fund's investments in investee funds are valued based on the reporting received from the administrators of those funds. As at 31 December 2018 and 2017, the value of investments in investee funds is the aggregate of the Fund's attributable share of the latest available net asset value ("NAV") of the investee funds.

The profit or loss of the Fund on its investments in investee funds is the aggregate of the Fund's attributable share of the result of the investee funds. The Fund Manager may, if it thinks fit, make adjustments as a result of the different bases of determination of results applied by the investee funds. As at 31 December 2018 and 2017, no such adjustments were made.

Where an up-to-date value of an underlying investment is not available, or the valuation date does not coincide with that of the Fund, the Fund Manager will use an estimated value.

#### *Receivables and prepayments*

The value of accounts receivable and prepaid expenses will be deemed to be the full amount unless it is unlikely to be paid or received in full. Appropriate allowances for estimated irrecoverable amounts are recognised in the income statement when there is objective evidence that the asset is impaired. Cash is carried at face value.

#### *Payables and accruals*

Payables and accruals and deferred income are included at fair value.

#### **Cash**

Cash comprises cash on hand and demand deposits. Cash also includes short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

## Notes to the financial statements

### 2. SIGNIFICANT ACCOUNTING PRINCIPLES AND POLICIES *(CONTINUED)*

#### **Statement of cash flows**

The statement of cash flows is prepared according to the direct method. The statement of cash flows shows the Fund's cash flows for the year divided into cash flows from operations and financing activities and how the cash flows have affected cash funds.

For the purposes of the statement of cash flows, financial instruments at fair value through profit or loss are included under operating activities. Cash flows from financing activities include proceeds from subscriptions and payments for redemptions of shares of the Fund. As the nature of the Fund is to invest in financial instruments, all cash flows related to investments are classified as cash flows from operating activities.

#### **Shareholders' equity**

All references to NAV throughout the financial statements are equivalent to shareholders' equity.

#### **Principles for determining the result**

The Fund recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument. A regular way purchase and sale of investments is recognised using trade date accounting.

The changes in value of investments in investee funds are accounted for in the income statement. The Fund uses forward currency contracts to limit the exchange rate risk. Forward currency contracts are accounted for as currency transactions. The change in value of forward currency contracts are also accounted for in the income statement.

Interest income and expense are accounted for in the income statement on the accrual basis.

#### **Tax position**

The Dutch tax authorities have granted a ruling confirming that the Fund is tax transparent. This implies that the Fund is not subject to corporate income tax. Distributions made by the Fund (for example in case of redemption by a participant) are not subject to dividend withholding tax.

Interest payable	(3,567)	(5,492)
Other payables	(2,056)	(1,363)
<b>Total</b>	<b><u>(71,616)</u></b>	<b><u>(61,497)</u></b>

#### 6. Share capital

##### *Structure of the Fund's capital*

Multi Strategy Alternatives Fund is structured as an open-ended contractual fund for joint accounts which is subject to Dutch law. The Fund may issue Class A participations, Class B participations and Class C participations. All classes are subject to the same investment objective and investment strategy. The sole difference between the different classes is that Class A participants will pay a lower management fee, due to the fact that the Delegate/Investment Advisor will waive its advisory fee that is payable out of the management fee for Class A. Only investors that are a client of the Delegate/Investment Advisor shall be issued Class A participations against each such participant's individual subscription. Class C participations will pay no management fee, due to the fact that both the Delegate and the Fund Manager will waive, respectively, the delegation fee payable out of the management fee and the management fee payable for this Class. Other participants subscribing will be issued Class B participations, unless otherwise determined by the Fund Manager in its sole discretion. The holders of Class A participations at any time wishing to increase their subscriptions, shall be issued Class A participations. As at 31 December 2018, only the Class A participations and Class C participations are in issue.

## Notes to the financial statements

### NOTES FOR INDIVIDUAL BALANCE SHEET ITEMS (CONTINUED)

#### 6. Share capital (continued)

##### Structure of the Fund's capital (continued)

The movement of equity in the participations during the year ended 31 December 2018 and 2017 is as follows:

<i>(All amounts in USD)</i>	<b>31 December 2018</b>	<b>31 December 2017</b>
<i>Contributions of participants</i>		
Balance at the beginning of the year	131,674,712	130,558,338
Issue of participations	2,925,000	11,546,000
Redemption of participations	(7,285,647)	(10,429,626)
<b>Total contributions at the end of the year</b>	<b><u>127,314,065</u></b>	<b><u>131,674,712</u></b>
<i>Unappropriated loss</i>		
Balance at the beginning of the year	6,157,898	(2,590,855)
Net (loss)/gain	(7,348,900)	8,748,753
<b>Total undistributed (loss)/gain at the end of the year</b>	<b><u>(1,191,002)</u></b>	<b><u>6,157,898</u></b>
<b>Equity at the end of the year</b>	<b><u>126,123,063</u></b>	<b><u>137,832,610</u></b>

##### Subscriptions and redemptions

Participants can, at the sole discretion of the Fund Manager, subscribe to the Fund on the first business day of each calendar month ("subscription day") at the NAV per participation as at the valuation day immediately preceding the subscription day ("subscription price"). The minimum initial subscription for each participant is USD 100,000. Participations were issued at an initial subscription price of USD 100 per participation and thereafter at the NAV per participation.

The Fund will enable participants to redeem participations at the NAV per participation as at the valuation day immediately preceding the redemption day ("redemption price") on the first business day of each calendar month ("redemption day"). The Administrator must receive the redemption request in proper form at least 2 months before the relevant redemption day. The Fund Manager may decide, in its sole discretion to accept redemption notices which are not received in a timely manner.

The movement of the participations during the year ended 31 December 2018 was as follows:

	<b>Participations at the beginning of the year</b>	<b>Participations issued</b>	<b>Participations redeemed</b>	<b>Participations at the end of the year</b>
Class A	1,263,567.5118	20,508.8247	(69,862.8696)	1,214,213.4669
Class C	50,082.8611	7,891.7929	-	57,974.6540
<b>Total</b>	<b><u>1,313,650.3729</u></b>	<b><u>28,400.6176</u></b>	<b><u>(69,862.8696)</u></b>	<b><u>1,272,188.1209</u></b>

## Notes to the financial statements

### NOTES FOR INDIVIDUAL BALANCE SHEET ITEMS (CONTINUED)

#### 6. Share capital (continued)

##### Subscriptions and redemptions (continued)

The movement of the participations during the year ended 31 December 2017 was as follows:

	Participations at the beginning of the year	Participations issued	Participations redeemed	Participations at the end of the year
Class A	1,302,951.5860	63,887.3227	(103,271.3969)	1,263,567.5118
Class C	-	50,082.8611	-	50,082.8611
<b>Total</b>	<b>1,302,951.5860</b>	<b>113,970.1838</b>	<b>(103,271.3969)</b>	<b>1,313,650.3729</b>

##### Capital management

The Fund's objectives when managing capital are to safeguard the Fund's ability to continue as a going concern in order to provide returns for participants and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Fund does not intend to pay dividends. All earnings will normally be retained for investments. However, the Fund reserves the right to declare dividends or make distributions if the Fund Manager so decides.

### NOTES FOR INDIVIDUAL INCOME STATEMENT ITEMS

#### 7. Interest income

Interest income relates to the interest on bank and broker balances.

#### 8. Foreign currency translation

Realised and unrealised exchange differences consist of realised and unrealised translation gains and losses on assets and liabilities other than financial assets and liabilities. For the year ended 31 December 2018, this amounted to gains of USD 88,969 (2017: gains of USD 631,682). The following average and closing rates have been applied in the preparation of these financial statements (the equivalent of one United States Dollar is shown):

	2018		2017	
	Average	Closing	Average	Closing
(Showing the equivalent of 1 United States Dollar)				
Euro	0.8525	0.8719	0.8918	0.8330

FATCA fees	(4,286)	(10,481)
Legal ownership fee	(2,618)	-
Incorporation fee	679	(3,431)
<b>Total</b>	<u>(361,968)</u>	<u>(344,912)</u>

## Notes to the financial statements

### NOTES FOR INDIVIDUAL INCOME STATEMENT ITEMS (CONTINUED)

#### 10. Costs (continued)

The basis on which various costs are charged to the Fund are disclosed in detail in the Prospectus. It is a Dutch regulatory requirement to disclose any differences between actual costs and the costs disclosed in the Prospectus. During the year ended 31 December 2018, all costs actually charged to the Fund were in accordance with the costs disclosed in the Prospectus. During the year, the Fund also incurred costs such as interest expense of USD 38,249 (2017: USD 35,313), regulatory fees of USD 10,452 (2017: USD 10,143), bank charges of USD 20,957 (2017: USD 17,899) and other operational costs of USD 11,973 (2017: USD 11,908) which are not detailed in the Prospectus.

#### Ongoing charges ratio

The ongoing charges ratio is the ratio of the total costs (excluding interest costs) to the average net assets of the Fund. The average net assets are based on the Fund's net assets at each calculation of the NAV i.e. monthly.

For the year ended 31 December 2018 and 2017, the ongoing charges ratio for the Fund is as follows:

	<b>2018</b>	<b>2017</b>
Ongoing charges ratio	0.24%	0.24%
Ongoing charges ratio including expenses of underlying funds	0.94%	1.40%

#### Turnover factor

For the year ended 31 December 2018, the turnover factor for the Fund is 74.52% (2017: 10.41%). The turnover factor is calculated by adding total purchases and sales, subtracting total subscriptions plus total redemptions and dividing the total by the average NAV. The large increase from 2017 to 2018 is due to the various movements of purchases, sales, subscriptions and redemptions.

## 11. RELEVANT CONTRACTS

### Fund Manager

#### *Management fee*

Privium Fund Management B.V. acts as the Fund Manager to the Fund. The Fund Manager is entitled to an annual management fee of 0.09% of the NAV of Class A participations and 1.09% of the NAV of Class B participations as at the last day of each calendar month. The management fee is calculated monthly and payable monthly in arrears. No management fee is applicable to Class C participations.

Details of management fees charged for the year are disclosed in the income statement.

### Administrator

The Fund has entered into an administration agreement with the administration delegated to Apex Fund Services (Netherlands) B.V. (formerly known as Custom House Fund Services (Netherlands) B.V.).

The Administrator charges an annual fee of 0.04% of the NAV, as of the last day of each month, subject to an annual minimum fee of EUR 20,000 (including VAT). The fee is calculated monthly and paid quarterly in arrears.

The Administrator also charges a fee of EUR 5,000 per annum from 1 January 2017 (EUR 3,500 prior to 1 January 2017) for the preparation of the financial statements.

Details of administration fees charged for the year are disclosed in the income statement.

### Custodian

ABN AMRO Clearing Bank N.V. acts as custodian to the Fund. The custodian is entitled to receive fees from the Fund in accordance with its customary charges.

### Legal owner fee

TCS Governance B.V. has been appointed as Management Board of the Legal Owner. The remuneration consists of an annual fixed fee of EUR 3,500 and variable remuneration of 0.0125%.

## Notes to the financial statements

### NOTES FOR INDIVIDUAL INCOME STATEMENT ITEMS (CONTINUED)

#### 11. RELEVANT CONTRACTS (CONTINUED)

##### Independent Auditor

The Fund appointed Ernst & Young Accountants LLP as the Independent Auditor. The Independent Auditor's remuneration consists of USD 20,645 (2017: USD 15,055) audit fee (including VAT) for the audit of the financial statements. The Independent Auditor does not provide any non-audit services or other audit services to the Fund.

##### Depository

The Fund has entered into a depository agreement with Darwin Depository Services B.V. From 1 January 2017, the Depository charges an annual minimum fee of EUR 16,500, (excluding VAT), payable quarterly in advance, for depository services provided to the Fund. This also includes a fee for management of the legal owner. From 1 January 2016, the Depository charged an annual fee of EUR 15,000, (excluding VAT). Details of depository fees charged for the year are disclosed in the income statement.

#### 12. RELATED PARTY TRANSACTIONS

Related party transactions are transfers of resources, services or obligations between related parties and the Fund, regardless of whether a price has been charged. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions or is part of key management of the Fund. The following provides details on the related parties of the Fund and transactions with the related parties. The Global Allocation Fund, a fund also being managed by the Fund Manager, maintains an investment in the Multi Strategy Alternatives Fund. Box Consultants B.V. has also been appointed as Delegate of the Fund. The investment in Multi Strategy Alternatives Fund is maintained in the Class C participations. No management fee is applicable for this share class.

The Fund Manager is considered a related party also.

The following transactions occurred between the Fund and the Fund Manager during the reporting year.

*Transactions from 1 January 2018 - 31 December 2018 and balances as at 31 December 2018*

	<b>Paid</b>	<b>Balance</b>
	<b>USD</b>	<b>USD</b>
Management fee	116,000	9,040

*Transactions from 1 January 2017 - 31 December 2017 and balances as at 31 December 2017*

	<b>Paid</b>	<b>Balance</b>
	<b>USD</b>	<b>USD</b>
Management fee	116,467	9,955

#### 13. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS

The investment objective of the Fund is to achieve long term growth by investing in a diversified portfolio of investee funds worldwide, predominantly hedge funds. When selecting investee funds, the Fund Manager will focus on fund managers that manage at least EUR 100,000,000 in the same strategy. The aim is to avoid illiquid strategies and illiquid investee funds.

The Fund's activities expose it to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk.

## Notes to the financial statements

### 13. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (CONTINUED)

The funds, to which the Fund subscribes, indirectly expose the Fund to various risks which are not outlined below. These risks are monitored by the Investment Manager of the Fund.

#### Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument fluctuates as a result of changes in market prices whether those changes are caused by factors specific to the individual security or its issuer or factors affecting all securities traded in the market. Market risk comprises market price risk, interest rate risk and currency risk. The Fund's market risk is managed through diversification of its investments.

#### Market price risk

Price risk is the risk that the value of the instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As at 31 December 2018 and 2017, price risk arises on the Fund's investments in investee funds.

The Fund's diversification of financial assets and liabilities at fair value through profit or loss represented per significant strategy as at 31 December 2018 and 2017 is as follows:

Strategy	2018		2017	
	Amounts in USD	% of NAV	Amounts in USD	% of NAV
Long/Short Equity	56,269,952	44.62%	51,225,536	37.2
Multi Strategy	37,772,399	29.94%	38,289,189	27.8
Fixed Income	23,871,405	18.93%	25,140,518	18.2
Global Allocation	-	-	13,984,972	10.1
Futures	-	-	8,387,258	6.1
	<b>117,913,756</b>	<b>93.49%</b>	<b>137,027,473</b>	<b>99.4</b>

The table below details the sensitivity of the Fund's investments to a reasonable possible increase of 5% at 31 December 2018 and 2017:

Strategy	2018		2017	
	Amounts in USD	% of NAV	Amounts in USD	% of NAV
Long/Short Equity	2,813,498	2.23%	2,561,277	1.9
Multi Strategy	1,888,620	1.50%	1,914,459	1.4
Fixed Income	1,193,570	0.95%	1,257,026	0.9
Global Allocation	-	-	699,249	0.5
Futures	-	-	418,773	0.3

A 5% decrease of the Fund's investments in each strategy would have resulted in an equal but opposite effect, on the basis that all other variables remain constant.

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Fund has no interest bearing financial instruments except for cash and amounts due to broker which are subject to normal market related short-term interest rates. Therefore, the Fund is not exposed to significant interest rate risks.

## Notes to the financial statements

### 13. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (CONTINUED)

#### Market risk (continued)

##### Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk exposure arises from the Fund investing in financial instruments and entering into transactions which are denominated in currencies other than its functional currency.

The Fund uses forward rate contracts to mitigate the foreign currency exchange risk. This hedging strategy is intended to substantially mitigate the currency risk but does not eliminate such risk.

The Fund uses forward currency contracts in order to manage the currency risk exposure of foreign currency positions. The forward currency contracts are settled on a gross basis and as such the Fund has a settlement risk of USD 0.1 million (2017: USD 0.04 million) and a credit risk exposure towards the counterparty at 31 December 2018 of USD Nil (2017: USD 59,585).

The currency exposure of the Fund at 31 December 2018 and 2017 is as follows:

	Net position USD	2018 Notional amounts forwards USD	Total currency exposure USD	Net position USD	2017 Notional amounts forwards USD	Total currency exposure USD
<b>Currency</b>						
Euro	22,895,025	(23,032,407)	(137,382)	(393,236)	(42,203)	(435,439)

All forward contracts will mature within 1 month (2017: 1 month). The notional amounts represent the undiscounted cash flow at the maturity date.

##### Credit risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. It arises from cash, derivative financial assets and interest receivable. The carrying values of financial assets (excluding any investments in investee funds) best represent the maximum credit risk exposure at the reporting date and amount to USD 9,037,111 (2017: USD 924,275).

All transactions of the Fund are cleared by ABN AMRO Clearing Bank N.V. representing a concentration risk. Bankruptcy or insolvency of ABN AMRO Clearing Bank N.V. may cause the Fund's rights with respect to the cash and/or its investments to be delayed or limited. The Fund regularly monitors its risk by monitoring the credit quality of ABN AMRO Clearing Bank N.V. as reported.

The current credit rating of ABN AMRO Bank N.V., the parent company of ABN AMRO Clearing Bank N.V., is 'A' (2017: 'A'), as determined by Standard and Poor's. If the credit quality or the financial position of this entity deteriorates significantly the Investment Manager will deal with another provider.

##### Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities.

The Fund's Prospectus provides for the monthly creation and cancellation of participations and it is therefore exposed to the liquidity risk of meeting participants' redemptions. The Fund's policy only allows for redemptions on the last day of each calendar month and notice of 2 months must be provided.

## Notes to the financial statements

### 13. FINANCIAL INVESTMENTS AND ASSOCIATED RISKS (CONTINUED)

#### Liquidity risk (continued)

The Fund is exposed to liquidity risk as the investments of the Fund in investee funds cannot immediately be converted into cash. The liquidity risk involved with the investee funds will be dependent on the redemption policies of the individual investee funds. Some of the investee funds may be or become illiquid, and the realisation of investments from them may take a considerable time and/or be costly. The Fund's investments in such investee funds may not be readily realisable and their marketability may be restricted, in particular because the investee funds may have restrictions that allow redemptions only at specific infrequent dates with considerable notice periods and apply lock-ups and/or redemption fees.

The liquidity risk is significantly reduced because the Fund diversifies its investments across different investee funds.

The Fund's other liabilities are short-term in nature.

### 14. NET ASSET VALUE AS ISSUED

The following schedule shows the reconciliation between the NAV in accordance with the Prospectus and the NAV as determined in accordance with Dutch Accounting Standard 210 ("Dutch GAAP").

The Prospectus states that incorporation costs should be amortised over 5 years. Dutch GAAP prefers that incorporation costs be expensed immediately.

	<b>31 December 2018 USD</b>	<b>31 December 2017 USD</b>
<b>Net assets attributable to holders of participations in accordance with the Prospectus</b>	126,133,305	137,854,050
<b>Adjustments</b>		
Unamortised incorporation costs	(10,242)	(21,440)
<b>Adjusted net assets attributable to holders of participations in accordance with Dutch GAAP</b>	<b>126,123,063</b>	<b>137,832,610</b>
<b>Number of participations</b>		
Class A participations	1,214,213.4669	1,263,567.5118
Class C participations	57,974.6541	50,082.8611
<b>NAV per participation in accordance with the Prospectus</b>		
Class A participations	99.25	105.04
Class C participations	96.80	102.35
<b>Adjusted NAV per participation in accordance with Dutch GAAP</b>		
Class A participations	99.25	105.03
Class C participations	96.80	102.34

### 15. EVENTS AFTER THE BALANCE SHEET DATE

No material events occurred after the balance sheet date that could influence the transparency of the financial statements.

## Other information

### Provisions of the Prospectus on distribution policy

The Fund Manager does not intend to distribute any income of the Fund to unitholders. The Fund Manager shall have sole discretion whether to distribute any income of the Fund or whether to retain it within the Fund.

### Interests held by the Directors

As at 31 December 2018, the Board of Directors did not hold any shares in the Fund or in the underlying investment funds.

### Provision of information

The annual report and the Prospectus of the Fund are available free of charge from the Fund Manager or available for download free of charge from the Fund Manager's website: [www.priviumfund.com](http://www.priviumfund.com).

### Date of authorisation

The financial statements have been authorised for issue by the Fund Manager in Amsterdam on 21 June 2019.

## Independent auditor's report

To: The shareholders and the directors of Privium Fund Management B.V. as investment manager of Multi Strategy Alternatives Fund

### Report on the audit of the financial statements 2018 included in the annual report

#### Our opinion

We have audited the financial statements 2018 of Multi Strategy Alternatives Fund, based in Amsterdam, The Netherlands.

In our opinion the accompanying financial statements give a true and fair view of the financial position of Multi Strategy Alternatives Fund as at December 31, 2018, and of its result and its cash flows for 2018 in accordance with Part 9 of Book 2 of the Dutch Civil Code.

The financial statements comprise:

- The balance sheet as at 31 December 2018
- The following statements for 2018: Profit and loss statement and cash flow statement
- The notes comprising a summary of the significant accounting policies and other explanatory information

#### Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the "Our responsibilities for the audit of the financial statements" section of our report.

We are independent of Multi Strategy Alternatives Fund in accordance with the Wet toezicht accountantsorganisaties (Wta, Audit firms supervision act), the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics).

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Report on other information included in the annual report

In addition to the financial statements and our auditor's report thereon, the annual report contains other information that consists of:

- Management Report
- Other information pursuant to Part 9 of Book 2 of the Dutch Civil Code
- General information

Based on the following procedures performed, we conclude that the other information:

- Is consistent with the financial statements and does not contain material misstatements
- Contains the information as required by Part 9 of Book 2 of the Dutch Civil Code

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements. By performing these procedures, we comply with the requirements of Part 9 of Book 2 of the Dutch Civil Code and the Dutch Standard 720. The scope of the procedures performed is substantially less than the scope of those performed in our audit of the financial statements.

The board of directors is responsible for the preparation of the other information, including the board of director's report in accordance with Part 9 of Book 2 of the Dutch Civil Code and other information pursuant to Part 9 of Book 2 of the Dutch Civil Code.

## Description of responsibilities for the financial statements

### Responsibilities of the board of directors for the financial statements

The board of directors of the investment entity is responsible for the preparation and fair presentation of the financial statements in accordance with Part 9 of Book 2 of the Dutch Civil Code. Furthermore, the board of directors is responsible for such internal control as the board of directors determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

As part of the preparation of the financial statements, the manager is responsible for assessing the investment entity's ability to continue as a going concern. Based on the financial reporting framework mentioned, the manager should prepare the financial statements using the going concern basis of accounting unless the manager either intends to liquidate the investment entity or to cease operations, or has no realistic alternative but to do so. The manager should disclose events and circumstances that may cast significant doubt on the investment entity's ability to continue as a going concern in the financial statements.

### Our responsibilities for the audit of the financial statements

Our objective is to plan and perform the audit assignment in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not have detected all material errors and fraud.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. The materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgment and have maintained professional skepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements. Our audit included e.g.:

- Identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the investment entity's internal control
- Evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the board of directors
- Concluding on the appropriateness of the board of director's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the investment entity's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause an investment entity to cease to continue as a going concern

- Evaluating the overall presentation, structure and content of the financial statements, including the disclosures
- Evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identify during our audit.

The Hague, 21 June 2019
