Legal, Tax and Regulatory Aspects

Legal Structure

The Fund is not a legal entity (*rechtspersoon*) but a contractual arrangement *sui generis* between the Fund Manager, the Legal Owner and each of the Participants separately, governing the assets and liabilities acquired or assumed by the Legal Owner for the account and risk of the Participants. The Fund has an open-ended structure. The Fund is governed by the Terms and Conditions. Tax Aspects

The Fund should be eligible for the status of a fiscal investment institution (*fiscale beleggingsinstelling*). This implies that profits realized are taxed at a zero percent corporate income tax rate, whereas the (mandatory) distribution of such profits to the Participants leads to an obligation for the Fund to withhold 15% dividend tax (subject to a specific payment credit mechanism for underlying withholding taxes, as further described in Section 12 of this Prospectus).

3 THE INVESTMENT OPPORTUNITY

3.1 Fund Objective, Strategy, Performance and Risk Objectives

3.1.1 Fund Objective

The Fund's objective is to achieve positive and measurable impact alongside long term capital growth by making sustainable impact investments. See Section 3.1.3 for additional information.

3.1.2 Fund Strategy

To achieve the Fund's impact and long-term capital growth objective, the strategy of the Fund is to invest in a diversified portfolio of listed and unlisted Investment Funds, Investee Companies and fixed income instruments. The Fund will have exposure in both developed countries and emerging markets and shall be focused on sustainable impact investments. The portfolio will be managed actively with a long-term investment horizon and following a sustainability approach. Following the definition of the International Finance Corporation, impact investing is defined as *"investments made into companies, organizations, vehicles and funds with the intent to contribute to measurable positive social, economic and environmental impact alongside financial returns"*. Impact can be measured in terms such as CO2 emission avoided, renewable energy produced (in MW) and number of jobs created.¹

The portfolio will be managed subject to the performance and risk objectives and the Investment Restrictions set out below. The Fund Manager may only deviate from these provisions and change the Investment Strategy by amending this Prospectus and the Terms and Conditions in the way set forth in Section 5.1.5 of this Prospectus.

The fund does not measure its financial performance against a benchmark but compares it to a reference index. It does not compare its impact performance to a sustainability benchmark or index but instead reports its contribution to the UN Sustainable Development Goals (SDG's) both quantitatively and qualitatively.

If the Fund holds investments denominated in currencies other than the Euro, this entails a foreign exchange risk. The Fund Manager may therefore hedge foreign exchange risks if it considers this to be in the interest of the Participants.

The Fund may enter into any investment, divestment or other business transaction with any other funds managed by the Fund Manager or Affiliates of the Fund Manager or advised by the Delegate or with related party funds, on the terms and conditions as applicable under the relevant funds' documentation. Valuations in relation to any such transaction may be performed by one or more parties involved in such transaction. Notwithstanding the foregoing, investments of a fund managed by the Fund Manager or Affiliates of the Fund Manager shall not be transferred to another fund managed by the Fund Manager or Affiliates of the Fund Manager.

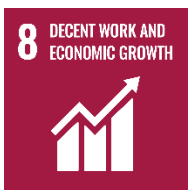

¹ Examples of such impact will be provided in the periodic reporting of the Fund.

3.1.3 Impact Objectives

3.1.3.1 Screening and impact mapping

Impact achieved by the Fund is measured according to the UN Sustainable Development Goals. The Sustainable Development Goals (SDGs), were presented by the United Nations in 2015 as the global blueprint for eliminating hunger and poverty, protecting our planet and ensuring peace and freedom for all by the year 2030. This blueprint is divided into 17 goals, each with a specific focus. The Fund has a multi-thematic approach, meaning an investment is categorized under a main ESG theme. The ESG themes currently being targeted include: 1: Financial Inclusion, 2: Education, 3: Renewable Energy, 4: Natural Capital and 5: Social Impact. The themes may change or expanded as the investment universe broadens.

Each theme aims to contribute to several SDGs. The impact of the Fund is measured on each SDG using impact key performance indicators. The table below provides an overview of the SDG target, its Key Performance Indicator and the way the impact is measured.²

3.1.3.2 Minimum investment criteria and governance

Alignment with the impact investment objective of the Fund drives the initial screening of a potential investment. Investments that do not aim to significantly contribute to at least one SDG, cannot report on PSIFs required indicators to quantify their contribution, do significant harm to an environmental or social issue or display poor governance, are excluded from the investable universe.

1: For funds domiciled in the EU, funds must be classified as SFDR article 9.

2: Funds not falling under SFDR, such as funds domiciled outside the EU, can nevertheless have a clear sustainability objective. PSIF can invest in such funds if they 1) align with the sustainable investment objective, 2) match the definition of sustainable investment based on the sustainability due diligence.

3: All funds that PSIF invests in must be signatories of, or conform with, UNPRI. This can be at fund company level or investment manager level.

4: All investee funds must comply with the exclusion list of PSIF.

5. All investee funds must be able to fulfil the reporting requirements of PSIF.

In addition, PSIF investigates the governance quality of the companies, organizations, vehicles, and funds managing the ultimate investments. This analysis is based on a combination of international standards from the UN Principles for Responsible investment (UNPRI), UN Global Compact, the OECD Guidelines for Multinational Enterprises and the Sustainability Accounting Standards Board (SASB). Focus points for the analyses conducted include employee engagement, diversity & inclusion; business ethics; operational and manager quality.

3.1.3.3 Target allocation

PSIF invests 100% of Invested Capital in:

- a) SFDR article 9 funds, and or
- b) Non-EU funds that make 100% sustainable investments based on proprietary analysis, and,
- c) Companies and financial instruments deemed to be sustainable based on proprietary analysis.

Here Invested Capital is defined as the investments being maintained by the Fund excluding cash, money market instruments or instruments used for foreign currency hedging.

100% of the Fund's Invested Capital aligns with its sustainable investment objective and contributes to either an environmental or a social objective. As investment opportunities and themes may shift over time, the allocation between environmental and social objectives may change. A minimum of 20% of the invested capital of the Fund will contribute to an environmental objective and a minimum of 20% of the invested capital of the Fund will contribute to a social objective. PSIF aims to select as much of its investments as possible to be aligned with its sustainable investment objective. Fund assets that are not aligned with its sustainable objective are grouped in the category 'other'. An asset may be marked as 'other' for the following reasons:

- Cash or money market instruments: the Fund may hold cash or money market instruments committed to a planned investment, cash freely available for investment or cash for portfolio management purposes.
- Foreign currency hedging: the Fund may hedge its foreign currency exposure for portfolio management purposes. The Fund does not apply hedging instruments or other derivatives for other purposes.

The aim is that the category other will make up no more than 25% of the Fund's total Net Asset Value, meaning that a minimum of 75% of the Fund's NAV will be invested into sustainable investments.

Invested Capital level	Min - Max		Total NAV level	Min - Max
Sustainable investments	100% - 100%		Sustainable investments	75% - 100%
Environmental objective	20% - 80%		Other (including cash)	0% - 25%
Social objective	20% - 80%		Environmental objective	20% - 80%

			Social objective	20% - 80%
--	--	--	------------------	-----------

An investment that is found to no longer fit with the Fund's objective or does not meet the minimum criteria, will be divested.

3.1.3.4 Exclusions

PSIF maintains a list of unwanted sectors and activities that the Fund will not directly invest in through the selection of investment funds, investee companies or other financial instruments. Exclusion applies to investments that:

- manufacture or sell cluster weapons, anti-personnel landmines, biological weapons, chemical weapons, depleted uranium, and nuclear weapons
- perform animal testing for purposes not required by law or if there are alternatives available.
- are responsible for severe environmental abuse
- are involved in fur farming, manufacturing, and trading
- are involved in providing gambling services
- are involved in genetic engineering
- human rights abuses
- are involved the production of nuclear energy
- are involved in the production, distribution or facilitation of adult entertainment
- tobacco cultivation and tobacco product manufacturing
- violate the UN Global Compact or show non-alignment with the OECD Guidelines on Multinational Enterprises
- do not align with the EU Paris-aligned Benchmarks exclusions on coal, oil and natural gas exploration or processing and the generation of power from these resources.

Additionally, the Fund requires from its investee funds a strong policy including use of funds clauses or other controls to avoid indirect involvement with the above-mentioned sectors or activities wherever possible.

UN Global Compact and OECD Guidelines on Multinational Enterprises

Compliance with applicable national and local regulations is a baseline expectation for the investments. The Fund recognizes that high standards of business conduct are critical to achieve portfolio success.

The Fund's focus on the SDGs requires good governance aligned with the OECD Guidelines for Multinational Enterprises (the "OECD Guidelines") from all its investments.

The Fund recognizes its role under the UN framework for Business and Human Rights. Due diligence and materiality analysis are therefore key parts of the Fund's investment process, considering the risks of not properly limiting and managing effects on communities, employees, customers and other business relationships such as suppliers. This includes labour rights, equality, pollution, resource use, cyber security and data management.

The Fund supports the UN Global Compact's 10 principles including human rights, labour, the environment and anti-corruption. The Fund integrates the principles in its investment risk analysis.

3.2 Fund Investment Restrictions

The below restrictions will apply to the Fund Assets. Deviation from the below restrictions is temporarily allowed during a portfolio rebalancing.

3.2.1 *Investment Thresholds*

- a) The Fund targets a minimum of ten (10) and a maximum of seventy-five (75) investments.
- b) The Fund will not have exposure to any one investment exceeding 20% of the assets of the Fund.
- c) The Fund will not invest in Investment Funds (i) which do not offer redemptions on at least a quarterly basis; (ii) which have a redemption notice period of more than two (2) months, for Investment Funds with a quarterly redemption frequency; and (iii) which have a redemption notice period of more than three (3) months, for Investment Funds with a monthly redemption frequency.

3.2.2 *Sustainability investments*

The Fund has making sustainable investments as its objective. In the context of the Sustainable Finance Disclosure Regulation ("SFDR"), the Fund is therefore classified as an Article 9 Fund. Additional SFDR related disclosure regarding Article 9 can be found in schedule 5 of this Prospectus.

Below, the details on how the Fund Manager considers the effects of material sustainability risks on the value of the Fund's investments in compliance with Article 6 of the SFDR can be found.

Sustainability risks are categorized into Environmental, Social or Governance (ESG) issues and may pose a material risk to the value of an investment.

Some examples of environmental risks are:

- Increased taxation on environmentally damaging activities
- Damage to production facilities due to global warming induced flooding
- Fines for mishandling of hazardous waste

Some examples of social sustainability risks are:

- Negative publicity and loss of contracts after poor handling of digital client data or security.
- Closer scrutiny of labor rights in the supply chain
- Dishonest marketing practices or product safety

Some examples of governance risks are:

- Increasing scrutiny on liveable wages and earnings dispersion within a company
- Ethics bribery and corruption
- Anti-competitive behaviour

Policy on the integration of sustainability risks into investment decisions

Certain investments of the Fund may allow for a direct analysis of the relevant sustainability risks. Not all sustainability risks may have a material negative effect on the value of an investment. Also, the relevancy of each sustainability risk may differ based on the economic sector the investment is active in. Therefore, the Fund applies the Materiality Map of the Sustainability Accounting Standards Board (SASB) to determine which sustainability risks are material to consider in the investment decision making process.

SASB has identified more than 25 sustainability risks divided across the E, S, and G topics. Dependent on the economic sector the investment is active in, these risks are marked either 1) not material, 2) not likely material, 3) likely material. For a risk to be classified as likely material, SASB has found that for over 50% of the companies active in that sector, the risk has a significant impact on the financial position or operational activities.

In each investment decision the relevant material sustainability risks are investigated using the following focus points:

- Policy and practices: Investigating if relevant sustainability risks to the investment are well covered by policies informs if all risks are sufficiently in scope and in control. If so, then the value of the investment may be less sensitive to the relevant sustainability risk than its peers.
- Incidents: If the sector or the investment experienced significant incidents regarding the relevant sustainability risk recently, this may inform the understanding of both the frequency of it occurring, as well as the investments readiness and quality of response. Better preparedness and a strong response mean the value of the investment may be less sensitive to the relevant sustainability risk than its peers.

This direct link to economic sectors may not be available for the Fund's investment into other funds, causing the preferred sub-sector approach to sustainability risk analysis to not be applicable. Here the analysis will have to focus on the investee fund's manager, policies, and reporting on sustainability risk management. The due diligence process for any new fund investment will contain the following topics:

- Analysis of the fund's sustainability risk related disclosures and reporting
- Questioning the fund manager on the sustainability risks the fund is exposed to
- Questioning the fund manager on the concentration of sustainability risks in the portfolio and its development over time
- Analysis of the fund manager's policy for identifying, measuring and monitoring sustainability risks
- Questioning if the fund manager takes Principle Adverse Impacts into account to avoid and mitigate any significant harm.

Irrespective of whether the investee fund is subject to the SFDR, the exposure to sustainability risk is investigated.

These analyses will provide a low, average or high estimated sensitivity of the value of the investment to material sustainability risks and informs the investment decision-making process. A high sensitivity does not automatically disqualify an investment from inclusion in the Fund, but this information will be included in the decision-making process.

Considering the broad scope of the Fund's investment policy, it is not possible to pre-define which sustainability risks will likely be material. Additionally, the estimated sensitivity of the Fund to specific sustainability risks will depend on the sector diversification. The broader the diversification across economic sectors, the lower the sensitivity.

Monitoring of sustainability risks in the Fund

On a monthly basis, the sustainability risk exposure for the investments of the Fund are reviewed and updated if and when applicable. Here, material changes to the individual sustainability risks of an investment are not expected to occur often. An update of the estimated sensitivity of the value of the investment to a sustainability risk might be triggered by a change in the policies and practices of the investment, or by a significant incident regarding the sustainability risk.

The material sustainability risk exposures and the concentration of high sensitivity investments in the Fund are part of the risk management policy of the Fund Manager and are monitored on a monthly basis.

Principal Adverse Impacts

The investments of the Fund may have a principal adverse impact on sustainability factors as defined in SFDR. Therefore, the Fund will consider these and report on the principal adverse impacts ("PAI") and any actions taken to mitigate them in the Fund's PAI statement. The Fund aims to report on all mandatory principal adverse impacts as outlined in the Regulation. However, the completeness of the Funds reporting will depend in part on the reporting of its underlying investments. In its reporting, the Fund will indicate any missing or incomplete indicators and its efforts to towards collecting them.

Taxonomy Regulation

The fund does not target a specific allocation to investments that contribute to climate change adaptation or mitigation as defined in article 9 of the Taxonomy Regulation . It may however be that some of its investments report their Taxonomy alignment. In this case, the Fund relies on the reporting of its underlying investments to report its aggregated alignment.

It is therefore not possible for the Fund to indicate which percentage of its holdings is expected to be aligned with the Taxonomy Regulation.

3.2.3 Risk Management

The Manager has a clear and elaborate risk management framework in place, in line with current legislation, such as the AIFM Directive. The risk management function within the Manager is performed by an independent risk manager. The Manager has a risk management committee which meets at least on a monthly basis.

The risk management framework consists of several individual components, whereby risk monitoring is being performed on an ongoing basis.

Under the AIFM Directive, the Fund Manager is required to establish and maintain a permanent risk management function. This function should have a primary role in shaping the risk policy of each Alternative Investment Fund ("AIF"), risk monitoring and risk measuring in order to ensure that the risk level complies on an ongoing basis with the AIF's risk profile.

The risk management function performs the following roles:

- Implement effective risk management policies and procedures in order to identify, measure, manage and monitor risks;
- Ensure that the risk profile of an AIF is consistent with the risk limits set for the AIF;
- Monitor compliance with risk limits;
- Provide regular updates to senior management concerning:
 - The consistency of stated profile versus risk limits; and
 - The adequacy and effectiveness of the risk management process; and the current level of risk of each AIF and any actual or foreseeable breaches of risk limits.

To identify the risk profile and main risks, and ensure the right measurement, management and monitoring of these risks, the Fund Manager has a rigid risk onboarding process. It ensures that the investment process is properly documented and the Fund itself is properly reviewed.

As described by the AIFM Directive quantitative risk limits are, where possible, constructed for various risk categories: market risk, liquidity risk, credit risk, counterparty risk and operational risk. These risk limits should be in agreement with the risk profile of the fund.

The risk management function is fully independent from the portfolio management function of the Fund Manager. The risk manager has full authority to close positions or the authorization to instruct the closing of positions on his behalf in case of a risk breach.

To ensure that all risk management tasks are executed correctly and timely, the Fund Manager uses an automated system (CM) that registers all risk tasks, keeps a list of all pending risk tasks, and escalates risk tasks that have not been executed or report a violation of a risk rule. The system produces an audit log that can be verified by the internal auditor, the external auditor, the management board, the regulator or other stake holders. Not all risk variables have limits but to identify any new relevant risks, every variable that is reported in the CM system flows through a sanity check. The sanity check will raise an exception if the variable falls outside its "normal" boundaries. Risk Management is notified of these exceptions and will make an assessment whether the situation is stable or whether further escalation is needed.

The positions of the fund are administered and reconciled using SS&C Eze Investment Suite and risk metrics such as value at risk, stress scenarios and portfolio liquidity are obtained through Bloomberg.

The CM system is responsible for monitoring of the pre-defined risk limits. The limits can either be configured as notification limits, soft limits or hard limits. In case of a breach of any of the limits, the escalation procedures are followed as described in the Global Risk Management Framework (Annex 17) of the Privium Handbook.

On a monthly basis the risk committee of the Fund Manager meets to discuss the performances and risks of the Fund. Any breaches are discussed. Additionally, on a yearly basis a risk evaluation and product review is conducted.

3.2.4 *Borrowings*

The Fund Assets may be pledged to the Custodian to borrow against the Fund Assets, only for bridge financing purposes and limited to 10% of the assets managed. The Fund Manager is not allowed to lend any of the Fund Assets to a third party. The Fund shall not employ leverage within the meaning of article 4 under (v) AIFMD.

4 RISK FACTORS

4.1 Introduction

An investment in the Fund carries a high degree of risk. There can be no assurance that the Fund will achieve its Fund Objective or that Investee Funds' investment policy and the Investee Companies' activities will be successful. The value of the Fund's investments and the Participations may fall as well as rise and returns on past investments are no guarantee as to the returns on future investments. Accordingly, Participants may lose all or part of their investment in the Fund. An investment in the Fund requires the financial ability and willingness to accept for an indefinite period of time the risk and lack of liquidity inherent in the Fund. Due to the Investment Strategy, the Net Asset Value of Fund Assets can strongly fluctuate. Potential participants should consider, among others, the non-exhaustive list of risks mentioned below, review this Prospectus and its ancillary documents carefully and in their entirety, consult with their professional advisors and conduct and subsequently rely upon their own investigation of risk factors associated with the proposed investment. Participants should realize that the existence and occurrence of certain risks may contribute to the existence and occurrence of other risks.

4.2 Risks Relating to the Fund

Performance

The Fund's results will largely depend upon the performance of Investee Funds and Investee Companies.

Lack of Liquidity

Some of the Fund Assets may be in assets which are illiquid or may become illiquid under certain market conditions. Accordingly, it may not always be possible to purchase or sell those assets for their expected value or, if applicable, the prices quoted on the various exchanges. The Fund's ability to respond to market movements may be impaired and the Fund may experience severe adverse price movements upon liquidation of its Fund Assets.

Restrictions on Transfers and Potential Illiquidity of Participations

Participations may not be registered under any securities laws and, therefore, cannot be resold unless they are subsequently registered under such laws or regulations there under. Participations are also subject to restrictions on their transferability under the Terms and Conditions. There is no public market for the Participations and none is expected to develop. Under certain circumstances as set out in Section 8 of this Prospectus, the Fund Manager may suspend the redemption of Participations.

Concentration of Investments

The Fund may hold relatively few, large investments in relation to the size of the Fund. The Fund could be subject to significant losses if it holds a large position in a particular investment that declines in value or is otherwise adversely affected. Lack of liquidity may aggravate such losses significantly. In addition, the Fund may own a significant percentage of all of the shares or other securities issued by an Investee Company or an Investee Fund. It may not always be possible to dispose of such securities

without incurring significant losses. Potential profits may not always be immediately realisable and may therefore be lost prior to realisation.

Non-diversified Status of Fund Assets

The Fund may not be able to achieve adequate diversification in respect of geography, instrument and investment type, sector, capitalisation, liquidity, volatility and/or currency. Consequently, the Fund Assets may be subject to and experience greater risk and market fluctuation than a fund that has investments representing a broader range of investment alternatives.

Economic Environment

In the current economic environment, there are increased risks of financial institutions on which the Fund is dependent for its operation or investment returns to fail, be bankrupted or subject to government seizure or nationalization.

(Foreign) Currency Risk

The Net Asset Value of the Participations may be affected by exchange rate fluctuations.

As certain of the Fund Assets may be denominated in currencies other than EUR while the Fund's accounts will be denominated in EUR, returns on certain Fund Assets may be significantly influenced by currency risk. The Fund Manager however may hedge against a decline in the value of the Fund's non-EU denominated Fund Assets. Should the Fund Manager decide to hedge the risk of currency devaluations or fluctuations, it may be that the Fund Manager will not always succeed in realizing hedges under acceptable conditions and consequently the Fund may be subject to the risk of changes in relation to the EUR value of the currencies in which any of its assets are denominated.

Counterparty Risk

The Fund will be subject to the risk of the inability or refusal of payment or clearing institutions, principals or other service providers or other counterparties to its transactions, to perform or to perform in time under such services or transactions. Any such failure, refusal or delay, whether due to insolvency, bankruptcy or other causes, could subject the Fund to substantial losses. It is expected that the Fund Manager will seek to mitigate these risks by reviewing the creditworthiness and reliability of all service providers and counterparties and only entering into transactions with those parties that the Fund believes to be creditworthy and reliable.

Inflation

Due to inflation, the relative value of Participations may decline. The Fund will not specifically hedge inflation risk or take other measures to mitigate this specific risk.

Market Risks

Markets may rise and fall and the prices of financial instruments and other assets on the financial markets in general, and more specifically the prices of assets of the nature and type the Fund may

invest in and hold, can rise and fall. A careful selection and spread of investments does not provide any guarantee of positive results.

Sustainability risk

Sustainability risk in the context of the Fund is defined as the risk of a decrease in the value of an investment of the Fund due to an environmental, social or governance (ESG) related event. Such an event may have a direct negative impact on the financials of the investment or a longer-term impact on the operations or earnings capacity of the investment. The Fund has identified multiple sustainability risks which may impact the value of its investments to a varying degree. See also Section 3.2.2 for additional details.

Changing Legislation

The regulatory and tax environment for investment funds in general as well as certain financial instruments and other types of investments are evolving and changes therein may adversely affect both the Fund's ability to pursue its investment strategies and the value of its Fund Assets. The effect of any future regulatory or tax change on the Fund is impossible to predict. The fiscal status of the Fund may change during the term of the Fund. The Participants are urged to seek fiscal advice before participating in the Fund.

Unclear Legislation

Unclear rules and regulations and conflicting advice may result in a breach of rules and regulations applicable to the Fund. Resulting fines, other sanctions, possible damage to the reputation of the Fund, the Fund Manager and other connected persons may result in a negative impact on the Net Asset Value of the Fund and the Participations.

Limited Rights of Participants

The Fund Manager has exclusive authority for managing all operations of the Fund. Participants cannot exercise any management or control functions with respect to the Fund's operations, although they have limited voting rights in certain organisational respects as set forth in the Terms and Conditions.

Indemnification

Under the Terms and Conditions, the Fund Manager and the Legal Owner are entitled to be indemnified out of Fund assets against costs, losses and expenses which they may incur or become liable in connection with the execution of their duties. In addition, the Depositary, the Delegate, the Administrator and other service providers also are entitled to indemnity under the terms of their respective agreements for services. These obligations could require substantial indemnification payments out of the Fund Assets, provided however that the Depositary shall not be so indemnified with respect to any matter resulting from its negligent or intentional failure to properly fulfil its obligations in accordance with article 21(12) of the AIFMD, and no other person shall be so indemnified with respect to any matter resulting from its attributable breach (*toerekenbare tekortkoming in de nakoming*).

Redemption Risk and Restrictions

The Fund is an open-ended fund and Participations may be redeemed at the request of a Participant in accordance with the restrictions of Section 8 of this Prospectus and the applicable terms of the Terms and Conditions. Accordingly, there can be no guarantee that the actual Redemption Price reflects the Net Asset Value per Participation as at the date of submitting the Redemption Notice. The Fund Manager may further suspend the redemption of Participations if: (i) a state of affairs exists which constitutes a state of emergency as a result of which the sale of Fund Assets would, in the sole opinion of the Fund Manager, not be practical or would negatively affect the rights of other Participants; (ii) the Participant did not act in compliance with applicable legislation or the Terms and Conditions; (iii) for whatever reason, the valuation of Fund Assets or Fund Obligations to be sold cannot be promptly or accurately ascertained; or (iv) relevant exchanges are not open for business or the sale of Fund Assets is otherwise restricted or suspended. Redemptions may cause the Fund to dispose of assets in order to meet its redemption obligations earlier than anticipated or under less favourable market conditions than the Fund would otherwise have disposed of such assets. This may result in a lower Net Asset Value of the Fund generating lower or negative returns for the non-redeeming Participants. Significant redemptions may lead to significant losses to Participants, which remain invested in the Fund.

Redemption of Positions

Given the Sustainable focus of the Fund, there is a higher chance that it would be required to redeem a position, since there is an additional factor for such redemption (i.e. an Investee Fund or an Investee Company is no longer deemed Sustainable enough). As part of the portfolio shall also be invested in positions that are not high liquid listed large cap stocks, such redemptions might have to be made at less favourable prices.

General Political Factors

Investment results may be adversely affected by developments in countries in which the Fund Assets or counterparties are located. This may result in a partial or complete loss by the Fund as a result of the breakdown of the country's financial system. Such developments include, without limitation: war; civil unrest, ranging from protests to civil war; changes in the political situation and/or government of a country; acts of terrorism; expropriation and creeping expropriation; and inability to transfer moneys cross-border or convert moneys to hard currency.

Capital Market Developments

The profitability of Investee Companies and of portfolio companies of Investee Funds partly depends on the developments in the capital markets. Developments in both debt and equity markets may impact the ability of such Investee Companies or portfolio companies to obtain debt financing or raise capital through share offerings. This may in turn impact the returns available for the relevant Investee Company or Investee Fund.

Non-listed Securities

An Investee Fund may invest a large portion of its assets in securities that may not be listed or traded on a stock exchange or regulated market. The issue of such securities may not be monitored by an authority. There may also not be a secondary market monitored by the authorities for such

instruments, and the liquidity of these instruments may accordingly be low. As these debt instruments may be issued by issuers who are new to the market or were only recently established, the selection of investments may not be based on detailed historical analyses of the issuer's activities. Consequently the risks and default risks for such investments may be much greater than for conventional securities. The Investee Funds portfolio may therefore be exposed to risks that usually apply to investments in new developments. The Investee Funds' investments may be much more speculative and entail a greater risk than would normally be the case when investing in securities. The microfinance institutions ("**MFIs**") sometimes do not have a regulated status as a bank or credit institution and are thus not monitored by an authority in the respective country. Therefore, if an MFI were to become insolvent, the relevant Investee Fund does not have the same guarantee that would apply to banks or other credit institutions; moreover, the lack of monitoring means that the bankruptcy risk of the MFIs is also higher. There may also not be any corresponding authorities or monitoring and security mechanisms for companies and organizations that operate in the field of fair trade ("**FT field**").

Follow-on Investments

An Investee Fund may have the opportunity or be requested to increase its investment in a particular portfolio company. In case an Investee Fund undertakes such follow-on investments, it may significantly increase its exposure to a particular portfolio company. In case it does not undertake such follow-on investments, this may have a negative impact on the returns of a particular portfolio company, or may lead to a dilution of the value of the relevant Investee Fund's investment.

Country Risk

An Investee Fund may invest in countries whose stage of development cannot be compared with that of industrialized countries. In relation to each other and in terms of growth of GDP or GNP, inflation (which may be much higher in threshold, transition and developing countries than in other countries), capital investment, self-sufficiency and balance of payments, the economies of the individual countries may be doing well or less well. Issuers of securities are usually subject, to differing degrees, to regulations regarding insider trading, market manipulation, issuing of voting proxy and the timely publication of information. Furthermore, the binding standards on reporting, balance sheet preparation and auditing of financial statements in the individual countries may vary considerably in various key points; investors in some countries may have access to less information than is the case in other countries. Nationalization, expropriation or taxation that is equivalent to expropriation, exchange rate controls, political changes, government provisions, political or social unrest or unfavourable diplomatic developments may impact negatively on the economy of a country or the portfolio's investment in this country. Expropriations, nationalization or other confiscation could affect MFIs and companies and organizations operating in the FT field, and the relevant Investee Fund could lose its entire investment in the country concerned. Furthermore, the laws of the countries involved that govern company, bankruptcy and insolvency law could offer security holders less protection.

The monies available to the Investee Funds may serve to finance small companies and FT organizations in threshold, transition and developing countries and are used by MFIs whose financial situation is by no means comparable with that of financial institutions in industrialized countries. Even if an urban audience is largely targeted and if repayments are less dependent on rural economic problems, the

typical problems in the agricultural sector of the countries concerned, including natural disasters and price slumps for local agricultural products, have a substantial effect on the repayment possibilities of the urban population. The risk of loss can, in unfavourable periods, be much higher than in developed countries.

In these countries, foreign investments are often subject to restrictions and controls of varying degrees. The restrictions and controls affecting the Fund may sometimes rule out investments and increase the costs of investments. Many countries demand government approval before a foreigner can invest in a certain company, or may limit the investments of foreigners to a certain percentage of the securities in circulation of a given issuer; or they may restrict the investment options for foreigners to a single class of securities of a company, to which less favourable conditions (including the price) are attached than to securities of the company available to nationals of that country. In addition, the repayment of investment income, capital or revenues from the sale of securities is governed by law in many countries, including in some cases a requirement of prior announcement to state authorities or official approval. If a country's balance of payments deteriorates it is also possible that the country will issue a temporary restriction on the export of capital.

Private Equity Investments

To a limited extent, the Investee Funds may (indirectly) invest in private equity capital. Investments with private equity characteristics typically involve uncertainties that cannot be compared to those arising in the case of other types of investments. In many cases, private equity investments involve companies that have been in existence for only a short time and which intend to establish themselves in an existing market or occupy new business areas. The business concepts behind these companies are usually based on new, innovative products or processes. Consequently, the process of forecasting the performance of such companies, their business concepts and potential sales is often fraught with uncertainty.

Official Authorization

The delay or denial of official authorization that may be required for the repatriation of capital, or other restrictions applicable to the relevant Investee Fund's investments, can adversely affect the value of the relevant Investee Company or Investee Fund portfolio. The liquidity of investments in countries where such factors affect the portfolio may suffer as a result. The limited liquidity of certain markets must be taken into account when evaluating investments; this may impair the Fund's or the relevant Investee Fund's ability to sell securities in order to meet redemption requests at the desired price and time. Transaction costs, including broker's fees, may also be higher than in industrialized countries.

Infant Stage Companies

Investments in companies that are still in the infant stages of development entail greater risks than is the case with securities of established companies. The securities of these companies are difficult to sell and are more susceptible to sudden, unstable market fluctuations than the securities of more mature companies or broadly diversified market indices. Accordingly, it is more difficult to determine

the market value of this paper, which may have negative repercussions on the relevant Investee Fund and unit holders if large amounts have been spent or when units are redeemed.

4.3 Risks Relating to the Fund Manager

Due to the insolvency, negligence or fraudulent actions of the Fund Manager, its officers or employees or third parties used for the custody of assets of the Fund, the value of Participations may decline.

4.4 Risks Relating to the Legal Owner, the Depositary and the Custodian

Due to the insolvency, negligence or fraudulent actions of the Legal Owner, the Depositary and/or the Custodian, their officers or employees or third parties used for the custody of assets of the Fund, the value of Participations may decline and the Fund Assets may be lost.

4.5 Risks Relating to Conflicts of Interests

Other Clients

The Fund Manager and/or Affiliates of the Fund Manager may or will manage or advise clients other than the Fund. There can be no assurance that such services do not conflict with the interests of the Fund. Although the Fund Manager and the Legal Owner intend to manage potential and actual conflicts of interest issues in good faith in compliance with the Fund's conflicts of interests policy, there can be no assurance that such conflicts of interest may be resolved in the best interests of the Fund should they arise.

Transactions with the Fund Manager and its Affiliates

The Fund Manager and its Affiliates may engage in certain related party transactions with the Fund. The Fund Manager and/or the Affiliates of the Fund Manager concerned will in such cases expect to receive a certain transaction consideration. Although the Fund Manager intends to manage potential and actual conflicts of interest issues in good faith in compliance with the Fund's conflicts of interests policy, such arrangements could present incentives for the Fund Manager and its Affiliates adverse to the interests of the Fund.

Diverse Participants

Participants may have conflicting investment, tax and other interests with respect to their investments in the Fund. The conflicting interests may relate to, among other things, the nature of Fund Assets, the structuring of Fund Assets and the timing of disposition of Fund Assets. As a consequence, conflicts of interest may arise in connection with decisions made by the Fund Manager that may be more beneficial for one Participant than for another Participant, especially with respect to Participant's individual tax situations. The Fund Manager will consider the investment, tax and other interests of the Fund and its Participants as a whole, not the investment, tax or other interests of any Participant individually.

The foregoing factors are not exhaustive and do not purport to be a complete explanation of all the risks and considerations involved in investing in the Fund. In particular, the Fund's performance may be affected by changes in market conditions, and legal, regulatory and tax requirements. The Fund will

be responsible for paying the fees, charges and expenses referred to in this document regardless of the level of profitability.

Potential Participants who are in any doubt as to the risks involved in investing in the Fund are recommended to obtain independent financial advice before making an investment.

5 LEGAL AND REGULATORY STRUCTURE OF THE FUND

5.1 Legal Structure of the Fund

The Subscription Price of a Participation subscribed for, is equal to the Net Asset Value per Participation as at the Valuation Date of such Participation. The Total Subscription Price is the applicable Subscription Price multiplied by the number of issued Participations. The minimum Total Subscription Price is EUR 100 per Participant. Up to and including the Closing Date, Participations are offered at a price of EUR 100 per Participation. After the Closing Date, the Participations are offered at a price based on Net Asset Value per Participation as at the Valuation Date of the Participations subscribed for.

In order to determine the total amount due by the subscriber to the Fund in consideration for the issuance of Participations (the Total Subscription Amount), the Total Subscription Price may at the sole discretion of the Fund Manager be increased by a surcharge in the event subscriptions on the applicable Subscription Notice Date exceed redemptions on such day and the associated costs to the Fund are material. The surcharge shall not exceed 0.5% of the Total Subscription Price of the Participations subscribed for. The surcharge shall be for the benefit of the Fund.

Participants shall economically be treated as having subscribed on the Valuation Date of the Participations subscribed for and accordingly shall receive any distributions declared by the Fund during the period from such Valuation Date to the Settlement Date of the Participations subscribed for.

In case a Participant has paid an amount exceeding the Total Subscription Amount, this amount will be repaid to the Participant to the same account from which such proceeds were originally debited.

7.1.4 Procedure

Applications for Participations must be made by submitting a duly signed and completed Subscription Form to the Administrator. If the Subscription Notice Date falls: (i) prior to or on the twenty-fifth (25th) day of a month, the Valuation Date of the Participations subscribed for shall be the last day of that month; (ii) after the twenty-fifth (25th) day of a month, the Valuation Date of the Participations subscribed for shall be the last day of the following month. The Determination Date of Participations subscribed for shall be determined by the Fund Manager in its sole discretion, but shall be no later than the tenth (10th) Business Day after the Valuation Date of such Participations. The Fund Manager reserves the right to accept or reject any application in whole or in part at its absolute discretion. When an application is rejected, the amount paid on application or the balance thereof (as the case may be) will be returned (without interest) as soon as practicable, to the same account from which such proceeds were originally debited.

Completed applications are irrevocable once the relevant Subscription Form has been received by the Administrator and the Total Subscription Amount has been received in the bank account of the Legal Owner. Upon issuance of the Participations in satisfaction of an application, the Administrator will confirm the number and value of the Participations so issued. For the avoidance of doubt, the Participations subscribed to prior to the Closing Date, shall be issued on the Closing Date.

7.2 Participant Representations and Warranties and Prevention of Money Laundering

7.2.1 Representations and Warranties

The Subscription Form requires each applicant for Participations to make certain representations and warranties to the Legal Owner and the Fund Manager.

Persons subscribing on behalf of others, such as nominees, securities giro's and feeder and custody entities, will need to represent to the Fund Manager and the Legal Owner in an addendum to the Subscription Form certain additional representations, including but not limited to compliance with client due diligence (CDD) and anti-money laundering (AML) rules.

7.2.2 **Prevention of Money Laundering and Financing of Terrorism**

Measures aimed at the prevention of money laundering and financing of terrorism will require each applicant for Participations to evidence its identity to the Administrator (“**CDD requirements**”). The procedure used by the Administrator is stated in the Subscription Form and is compliant with the Dutch Act on the prevention of money laundering and financing of terrorism (*Wet ter voorkoming van witwassen en financieren van terrorisme*).

The Administrator reserves the right to request such other information as is necessary to verify the identity of an applicant. Pending the provision of evidence satisfactory to the Administrator as to the identity, the evidence of title in respect of interests may be retained at the absolute discretion of the Administrator. If, within a reasonable period of time following a request for verification of identity, the Administrator has not received evidence satisfactory to it as mentioned above, the Fund Manager may, in its absolute discretion, refuse to allot the Participations applied for in which event the subscription proceeds will be returned without interest and/or less any other costs incurred by the Fund relating to the transaction of the applicant to the account from which such proceeds were originally debited.

In the event that changes in CDD requirements occur either in policy or in legislation after an investor’s have been allotted, investors will be obliged to provide additional CDD documentation to satisfy such changed requirements within a reasonable period of time following a request for such additional documentation. Any investor who does not or cannot provide the additional CDD documentation may be forcibly redeemed from the Fund in accordance with the mandatory redemption provisions as set forth in the Terms and Conditions.

Investors should be aware that the Total Subscription Amount will be at risk once it has been invested in the Fund. An investor's failure to comply with applicable CDD requirements may result in the return of an amount lower than the Total Subscription Amount.

8 TRANSFER AND REDEMPTION OF PARTICIPATIONS

8.1 Introduction

Participations are not listed on a regulated stock exchange nor does the intention exist to apply for such listing in the foreseeable future. No developed unregulated market for Participations exists and no party has been instructed by the Fund or the Fund Manager to maintain a market for Participations. A transfer of Participations is subject to certain conditions. Though the Fund is in principle obliged to redeem Participations at the request of a Participant, the Fund will under circumstances not be able and/or not obliged to do so.

Participations therefore might be a less liquid investment as expected by a Participant and (prospective) Participants should take into account that under circumstances they cannot liquidate such numbers of their Participations at such moments as they intend to.

8.2 Transfer of Participations

A Participant may transfer all or some of such Participant's Participations provided that all of certain conditions set forth in the Terms and Conditions have been met.

One of these conditions is that the envisaged transfer has been approved by the Fund Manager (such approval to be given or withheld at the Fund Manager's sole discretion).

8.3 Redemption of Participations at the Request of a Participant

On any Settlement Date, provided the requirements of the Terms and Conditions have been met and redemption of Participations is not suspended in accordance with Article 8.3.3., the Fund Manager will redeem Participations at the request of a Participant sent in writing to the Administrator.

The Fund Assets will be sufficiently liquid to, under normal circumstances, allow the Fund to redeem Participations as requested by its Participants for at least 10% of the assets managed.

8.3.1 *Redemption Price and Costs of Redemption*

The Redemption Price of a Participation redeemed, is equal to the Net Asset Value per Participation as at the Valuation Date of such Participation. The Total Redemption Price is the applicable redemption price multiplied by the number of redeemed Participations.

In order to determine the net amount due by the Fund to a Participant in consideration for the redemption of Participations (the Total Redemption Amount), the Total Redemption Price may at the sole discretion of the Fund Manager be reduced by a discount in the event redemptions on the applicable Redemption Notice Date exceed subscriptions on such day and the associated costs to the Fund are material. The discount shall not exceed 0.5% of the relevant Total Redemption Price of the Participations redeemed. The discount shall be for the benefit of the Fund.

Participants shall economically be treated as having redeemed on the Valuation Date of the Participations redeemed and accordingly shall not receive any distributions declared by the Fund during the period from such Valuation Date to the Settlement Date of the Participations redeemed.

8.3.2 **Procedure**

Applications for the redemption of Participations should be submitted to the Administrator by means of a duly signed Redemption Notice specifying the details of the redemption. Redemption Notices are irrevocable once received by the Administrator.

Participants need to ensure that a signed Redemption Notice will be received by the Administrator on the first (1st) day of the month prior to the relevant Valuation Date of the Participations redeemed.

If the Redemption Notice Date falls:

(i) prior to or on the first (1st) day of a month, the Valuation Date of the Participations redeemed shall be the last day of that month. Example: redemptions received on September 1 or prior will be redeemed against the NAV of the September 30 Valuation Date;

(ii) after the first (1st) day of a month, the Valuation Date of the Participations redeemed shall be the last day of the month immediately thereafter. Example: redemptions received on September 20 will be redeemed against the NAV of the October 31 Valuation Date.

The Determination Date of Participations redeemed shall be determined by the Fund Manager in its sole discretion, but shall be no later than the tenth (10th) Business Day after the Valuation Date of such Participations. The Settlement Date of the Participations redeemed shall be on the third (3rd) Business Day after such Determination Date.

The Total Redemption Amount will normally be paid to the redeeming Participant on the Settlement Date of the Participations redeemed, provided that the Administrator has received the CDD requirements unless exceptional circumstances occur, in which case the consideration will be paid at the earliest possible Business Day thereafter.

In the case the Administrator has not received all the requested CDD requirements, even though the redemption request will be processed, redemption proceeds will be held in the name of the redeeming Participant at the Fund's bank account without any interest accruing in favour of the Participant and the Participant will bear all associated risks until such time as the Administrator receives the outstanding CDD requirements.

Limitation of redemptions

The Legal Owner and the Fund Manager may limit the redemption of Participations on a Settlement Date to an aggregate Total Redemption Price of twenty per cent (20%) (or more, as long as such higher gate is not to the detriment of the remaining Participants) of the Net Asset Value on the Valuation Date prior to the Settlement Date. In this case, the number of Participations to be redeemed per Participant will be *pro rata* the total number of Participations offered for redemption. Any Participations included in a redemption request that have not been redeemed as a result of such scale down of a redemption request are deemed to be offered for redemption on the following Settlement Date on a *pro rata* basis alongside subsequent redemption requests (but not compulsory redemptions) and shall be subject to the same limitations.

8.3.3 *Suspension of Redemption*

The Fund Manager may suspend the redemption of Participations if:

- a) the determination of the Net Asset Value has been suspended (see Section 10.2);
- b) the transfer of funds realised from the sale of Fund Assets cannot, in the sole opinion of the Fund Manager, be effected at normal rates of exchange;
- c) relevant exchanges are not open for business or the sale of Fund Assets is otherwise restricted or suspended;
- d) a state of affairs exists which constitutes a state of emergency as a result of which the sale of Fund Assets would, in the sole opinion of the Fund Manager, not be practical or would negatively affect the rights of other Participants;
- e) the Participant did not act in compliance with applicable legislation or these Terms and Conditions;
- f) for whatever reason, the valuation of Fund Assets or Fund Obligations to be sold cannot be promptly or accurately ascertained; or
- g) for whatever reason, the redemption of the Investee Funds Interests is suspended at the level of the relevant Investee Fund, as applicable.

8.4 **Mandatory Redemption of Participations**

The Fund Manager shall under certain extraordinary circumstances as set forth in the Terms and Conditions and with due regard to the general provisions and conditions relating to redemption of Participations be entitled to redeem all (but not part of) the Participations of any Participant. In the case the Administrator has not received all the requested CDD requirements, even though the redemption request will be processed, redemption proceeds will be held in the name of the redeeming Participant at the Fund's bank account without any interest accruing in favour of the Participant and the Participant will bear all associated risks until such time as the Administrator receives the outstanding CDD requirements.

9 COSTS AND EXPENSES

9.1 Introduction

In this Section 9 all costs and expenses related to the organisation, management and transactions of the Fund which will be paid by or charged to the Fund and accordingly result in a reduction of the Fund's Net Asset Value are described.

This Section does not refer to costs and fees charged to the Participants by the Fund upon a subscription for or redemption of Participations (for these costs and fees see Sections 7 and 8) or by their own service providers in connection with an envisaged investment in or divestment from the Fund (like fees and costs charged to a Participant by its advisors, banks or brokers).

All costs referred to in this Section will be allocated to the period to which they relate. Unless indicated otherwise, all costs will be brought at the charge of the Fund's profit and loss account.

All amounts and percentages mentioned in this Section 9 are exclusive of Dutch or foreign value added tax (VAT), if due. Under present legislation, the Fund cannot deduct VAT charged to the Fund.

9.2 Cost Categories

All transaction costs shall be borne by the Fund and be brought at the charge of the Fund's profit and loss account.

The Fund Manager will select transactional service providers on the basis of various considerations, like quality, promptness of performance of services and fee rates. Fee rates may not exceed market standard rates. The total amount of transaction costs from time to time is variable and depends on the number and size of transactions and applicable rates.

9.2.2 *Fund Operational Costs*

Fund operational costs *inter alia* include, but are not limited to all costs of legal, tax, administrative, accounting, audit, reporting, legal ownership and similar services and advices provided to the Fund and all costs of communications with and meetings of the Participants and the regulatory costs related to the supervision by the AFM and DNB. All operational costs shall be borne by the Fund and be brought at the charge of the Fund's profit and loss account.

The Fund will bear all taxes, if applicable.

Any changes to the Management Fee are subject to the prior approval of the Fund Manager and the Legal Owner.

For the avoidance of doubt the Fund shall not bear the cost of remunerating any employee of the Fund Manager or any of its Affiliates or any office rental, utilities or office equipment or other overhead or travel costs of any of their respective personnel, it being acknowledged that the Management Fee is intended to compensate the Fund Manager for such costs.

In addition to the remuneration referred to above, the Administrator is entitled to an office surcharge of 4.5% of the annual fee stated above. Expenses in connection with the establishment of the Fund and organisational costs of the Fund, will be paid out of the Fund Assets, including (but not limited to) legal, accounting and tax advisory fees, incorporation expenses and travel costs.

Establishment costs (set-up costs) amounted to EUR 82,000 as reimbursement for the costs charged to the Fund Manager in connection with the formation of the Fund, including legal and tax advisory fees and regulatory costs plus assurance report costs, which shall be activated and written off over a period of five (5) years. As of the publication date of this Prospectus the organisational expenses of the Fund have been amortized in full.

Accordingly, further fees and expenses are likely to be incurred at the level of such investment funds, managed accounts and other investment vehicles.

Subscription price for Investee Funds Interests shall be borne by the Fund and be brought at the charge of the Fund's profit and loss account. Other costs related to investments in Investee Funds shall be paid out of such relevant Investee Fund's assets.

The OCF will be calculated at the end of each financial year and published annually in the Fund's annual reports.

The below table illustrates the expected OCF of the Fund (based on EUR 620 million of assets under management):

10 VALUATION, REPORTING AND INFORMATION DISCLOSURE

10.1 Valuation Principles

The Fund Manager shall value the Fund Assets and Fund Obligations in accordance with Dutch GAAP and, where more specific, certain valuation methods set forth in the Terms and Conditions.

The Investee Funds Interests shall be valued on the basis of the latest available valuation of Investee Funds Interests provided by the administrators of the relevant Investee Funds, as further set forth in the Terms and Conditions. The Fund Manager has delegated the calculation of the Net Asset Value to the Administrator. To ensure valuations received from administrators of the Investee Funds are appropriate, valuations are reviewed by the Fund Manager (or the Administrator), based on the previous valuation received and other relevant information. Valuations that deviate materially from the previous valuation are further analysed and if needed discussed with the manager or administrator of the relevant Investee Fund.

10.2 Reporting to Participants

10.2.1 *Financial year*

The financial year of the Fund shall begin on the first day of January and end on the thirty first day of December of the next calendar year. The first financial year of the Fund began on the Closing Date and ended on the thirty first day of December 2014.

10.2.2 *Reporting on Net Asset Value*

Subject to certain exception grounds set forth in the Terms and Conditions, the Fund Manager shall as per last calendar day of each month determine the Net Asset Value and the Net Asset Value per Participation. The Net Asset Value shall be expressed in Euro and be determined in accordance with the Fund's valuation principles referred to above.

The Fund Manager has delegated the determination of the Net Asset Value and the Net Asset Value per Participation to the Administrator. In determining the Net Asset Value of the Fund and the Net Asset Value per Participation, the Administrator will follow the valuation policies and procedures adopted by the Fund as set out above. If the Fund Manager disagrees with the Net Asset Value and/or the Net Asset Value per Participation as determined by the Administrator, other than for the reasons of there being a mistake in the data feed, the Depositary will be consulted with respect to the determination of such Net Asset Value and the Net Asset Value per Participation. If the Depositary agrees with the Net Asset Value and the Net Asset Value per Participation as determined by the Administrator and contested by the Fund Manager, an independent auditor shall be selected by the Administrator and the Fund Manager to determine such Net Asset Value and the Net Asset Value per Participation.

The Fund Manager may declare a suspension of the determination of the Net Asset Value and the Net Asset Value per Participation:

- a) if one or more stock exchanges on which Fund Assets are listed (or on which securities which belong to the assets of a collective investment scheme in which the Fund is invested are listed

- directly or indirectly), are closed on other days than normal days of closure or if the transactions on these exchanges are suspended or subject to irregular restrictions;
- b) if the communication means or calculation facilities normally used to determine the Net Asset Value no longer function or if, for any other reason, the value of a Fund Asset or Fund Obligation, cannot be determined with the speed or accuracy desired by the Fund Manager;
 - c) if there are factors relating to the political, economic, military or monetary situation that make it impossible for the Fund Manager to determine the Net Asset Value; or
 - d) if a resolution to liquidate the Fund is passed; or
 - e) if the management board of an Investee Fund suspends the determination of the net asset value of the relevant Investee Funds Interests, as applicable.

When the Fund Manager is unable to determine the Net Asset Value and the Net Asset Value per Participation, the Participants will be informed hereof. The Fund Manager has established a Valuation Committee. The Valuation Committee is responsible for valuations and issues regarding valuations.

In case of errors in the calculation of the Net Asset Value of more than 0.5% of the Net Asset Value, the Fund Manager will as soon as possible prepare a report on the errors that were made and which correction will need to be made to the Net Asset Value. If a correction is required of more than 0.5% of the Net Asset Value, and a Participant incurred a loss by an allocation or redemption against the erroneously calculated Net Asset Value, the Fund will at the request of such Participant provide compensation (in cash or in Participations) for the relevant Participant for the actual loss incurred. The compensation will be paid out of the Fund Assets.

Within ten (10) Business Days following the calculation of the Net Asset Value a statement on the Net Asset Value of the Fund as per last calendar day of each month shall be published on the Fund Manager's website.

10.2.3 *Annual and Semi-annual Reporting*

Within six (6) months after the end of each financial year of the Fund, Fund Manager shall, in accordance with the applicable legal requirements, prepare and publish the Fund's annual accounts (consisting of at least a balance sheet, profit and loss account and explanatory notes), annual report and other information for such financial year.

Within nine (9) weeks after the end of the first half of the financial year, the Fund Manager shall draw up a semi-annual report and financial statements concerning this period.

The annual accounts and the semi-annual report shall be drawn up in accordance with the applicable provisions of Title 9 of Book 2 of the Dutch Civil Code and published on the Fund Manager's website.

The Fund Manager will provide the Participants upon request and free of charge with copies of the annual accounts, annual report and semi-annual report, notwithstanding their compliance with other publication requirements under applicable laws.

10.2.4 *Other Information*

The license provided to the Fund Manager pursuant to article 2:65 FSA and the Terms and Conditions shall be available for inspection at the office of the Fund Manager. A copy of the Terms and Conditions

10.2.5 *Information Regarding Investee Funds*

The Fund Manager, the Legal Owner and/or the Custodian shall on behalf of the Fund, in its capacity of the holder of Investee Funds Interests, be entitled to receive and/or inspect documents which Investee Funds shall make available for the holders of interests in such Investee Funds. The Fund Manager may upon request and with the prior consent of the investment manager of the relevant Investee Fund provide certain information related to the Investee Funds to which 20% or more of the assets of the Fund are allocated to Participants at cost price.

10.2.6 *Historical Performance, Latest Annual Report and Net Asset Value of the Fund*

The information with respect to the historical performance of the Fund, the latest Net Asset Value and the latest annual report of the Fund as at the date of this Prospectus are set forth in **Schedule 4** attached hereto.

10.3 *Liquidity Risk*

The Fund Manager employs an appropriate liquidity risk policy and has adopted procedures which enable it to monitor the liquidity risk of the Fund and to ensure that the liquidity profile of the investments of the Fund complies with their underlying obligations. In particular, the Fund Manager can restrict redemptions on certain conditions as set out in the Terms and Conditions.

As and when relevant, the Fund Manager shall periodically (at least monthly) disclose to the Participants by e-mail or in the monthly fact sheet:

- a) the percentage of the Fund Assets which are subject to special arrangements arising from their illiquid nature;
- b) any new arrangements for managing the liquidity of the Fund; and
- c) the risk profile of the Fund and the risk management systems employed by the Fund Manager to manage those risks.

10.4 Independent Auditor

EY Accountants B.V. has been appointed as independent auditor of the Fund. EY Accountants B.V. is a member of the Netherlands Institute of Chartered Accountants and are under supervision of the AFM based on the Audit Profession Act (*Wet toezicht accountantsorganisaties*).

11 DISTRIBUTIONS

11.1 Distributions Policy

As primary Fund Objective of the Fund is to achieve capital growth. Distributions of Net Proceeds (including profit distributions) will be made when (i) they are required in connection with the fiscal status of the Fund as a fiscal investment institution (*fiscale beleggingsinstelling*); or (ii) there are no sufficient suitable investment opportunities to achieve the Fund Objectives of the Fund. All distributions (including profit distributions) to the Participants will be made by the end of August of each calendar year and pro rata to the number of Participations held by each Participant.

Any distribution (including profit distributions) to the Participants, including the amount, composition and manner of payment, shall be published on the Fund Manager's website.

11.2 Form of Distributions

Distributions of Net Proceeds (including profit distributions) will be made in cash, in EUR, provided that the Administrator has received all requested CDD requirements.

12 DUTCH TAXATION ASPECTS

12.1 Introduction

The following summary of certain Dutch taxation matters is based on the laws and practice in force as of the date of this Prospectus and is subject to any changes in law and the interpretation and application thereof, which changes could be made with retroactive effect. The following summary does not purport to be a comprehensive description of all the tax considerations that may be relevant to a Participant, and does not purport to deal with the tax consequences applicable to all categories of Participants. The tax and other matters described in this Prospectus do not constitute, and should not be considered as, legal or tax advice to prospective Participants. Participants should consult their professional advisers on the tax consequences of their acquiring, holding and disposing of the Participations.

12.2 Taxation of the Fund

The purpose of the Fund is to derive economic benefits for Participants by investing or otherwise utilizing moneys for joint account, while (i) it qualifies as an investment fund as meant in article 1:1 FSA and (ii) Participations can be freely transferred, *i.e.*, not just by way of redemption by the Fund itself. Consequently, pursuant to article 2(4) CITA the Fund qualifies as an 'open' (non-transparent or 'opaque') fund for joint account and therefore as a taxable entity.

In principle, this implies that the Fund is subject to Dutch corporate income tax, albeit that the applicable rate is zero percent provided that pursuant to article 28 CITA the Fund is and remains eligible for the status of a fiscal investment institution (*fiscale beleggingsinstelling*).

In order to qualify for the status of a fiscal investment institution, the Fund must meet the following main conditions:

First of all, the objective of the Fund, as well as its actual business operations, must consist of the (passive) investment of capital in assets other than immovable property situated in the Netherlands.

In addition to that, the Fund must distribute its (net) income as dividends to its Participants within eight months following the end of its financial year. However, to avoid that capital gains and losses may influence the dividend distribution obligation, the Fund may opt to form a reinvestment reserve by adding the positive balance of capital gains on investments. Once such reserve is formed, any negative balance must obviously be charged against it.

Furthermore, the Fund may only finance its investments with debt to a certain maximum, *i.e.*, 60% of the fiscal book value of any immovable property and 20% of the fiscal book value of any other investments.

Finally, certain requirements apply with respect to the level of concentration of Participations among Participants. Such requirements depend on whether or not Participations are offered to the general public (*i.e.*, can in principle be offered to non-professional investors also). Participations are for such purposes considered to be offered to the general public if:

- a) the shares or participations are admitted to a market for financial instruments as referred to in article 1:1 FSA; or
- b) the Fund or its manager has a license as referred to in article 2:65 FSA or article 2:69b or is exempt from such license pursuant to article 2:66 (3) FSA or article 2:69b(3) FSA.

Since the Fund Manager is in the possession of an AFM license as referred to in article 2:65(1)(a) FSA, the following conditions apply to the concentration of Participations:

- a) an individual may not hold 25% or more of the interest in the Fund; and
- b) a maximum of 45% of the total number of Participations (that participate in the reserves upon dissolution of the entity) may be held by one entity (being the ultimate beneficial owner and not being a fiscal investment institution the shares or participations of which are offered to the general public) that is subject to any form of tax levied on profit or the profit of which is included in such a tax at the level of the beneficiaries entitled to the capital or the profits of the entity.

12.3 Withholding Taxes

Pursuant to article 1(2) DTA, in principle distributions by the Fund are subject to the levy of Dutch dividend withholding tax at the statutory 15% withholding rate.

However, Dutch dividend withholding tax and any (non-reclaimable) foreign withholding taxes withheld on dividend and interest payments received by the Fund may be credited against the Dutch dividend withholding tax that must be withheld on dividends paid by the Fund. In principle, the Dutch dividend withholding tax that is not actually remitted to the Dutch Revenue by the fiscal investment institution as a result of this remittance reduction still remains creditable or refundable at the level of the individual Participants.

Since a fiscal investment institution is subject to the levy of Dutch corporate income tax rate (albeit at a zero percent rate), in principle the Fund can invoke bilateral tax treaties concluded by the Netherlands in order to benefit from exemption or reduction of any foreign taxes withheld on dividend or interest payments received by the Fund, as well as foreign capitals gains taxes.

13 POLICY REGARDING VOTING RIGHTS AND VOTING CONDUCT INVESTEE FUNDS AND INVESTEE COMPANIES

The Fund Manager, in its capacity of the fund manager of the Fund or the Legal Owner, in its capacity of the holder of the legal ownership of Investee Funds Interests or Investee Companies Interests, do not intend to attend the general meetings of shareholders/limited partners/members of the Investee Funds or Investee Companies and any relevant sole class or category meetings and to exercise the voting rights attached to such Investee Funds Interests or Investee Companies Interests.

14 ASSURANCE REPORT

Assurance report pursuant to Section 115x, subsection 1, of the Dutch Decree on Conduct of Business Supervision of Financial Undertakings under the Financial Supervision Act

To: the manager of the Privium Sustainable Impact Fund

Our opinion

In accordance with Section 115x, subsection 1, under e, of the Besluit Gedragstoezicht financiële ondernemingen Wft (BGfo Wft, Decree on the Supervision of the Conduct of Financial Undertakings pursuant to the Act on Financial Supervision), we have examined the prospectus of the manager of Privium Sustainable Impact Fund, Amsterdam.

In our opinion the prospectus dated 8 November, 2024 of Privium Sustainable Impact Fund contains, in all material respects, at least the information required by or pursuant to the Wet op het financieel toezicht (Wft, Act on Financial Supervision) for a prospectus of an alternative investment fund.

Basis for our opinion

We performed our examination in accordance with Dutch law, including Dutch Standard 3000A, “Assurance-opdrachten anders dan opdrachten tot controle of beoordeling van historische financiële informatie (attest-opdrachten)” (Assurance engagements other than audits or reviews of historical financial information (attestation engagements)). This engagement is aimed to obtain reasonable assurance. Our responsibilities in this regard are further described in the Our responsibilities for the examination of the prospectus section of our report.

We are independent of Privium Sustainable Impact Fund and Privium Fund Management B.V. in accordance with the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence requirements in The Netherlands. Furthermore we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics).

We believe that the assurance evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Relevant matters relating to the scope of our examination

Our examination consists of verifying that the prospectus contains the required information, which means we did not examine the accuracy of the information included in the prospectus.

Furthermore, Dutch law does not require the auditor to perform additional assurance procedures with respect to Section 115x, subsection 1, under c, of the BGfo Wft. Pursuant to Section 115x, subsection 1 under c of the BGfo Wft, the prospectus of an alternative investment fund contains the information which investors need in order to form an opinion on the alternative investment fund and the costs and risks attached to it.

Our opinion is not modified in respect of these matters.

Responsibilities of the manager for the prospectus

The manager of the Privium Sustainable Impact Fund is responsible for the preparation of the prospectus that contains at least the information required by or pursuant to the Wft for a prospectus of an alternative investment fund.

Furthermore, the manager is responsible for such internal control as it determines is necessary to enable the preparation of the prospectus that is free from material omission, whether due to error or fraud.

Our responsibilities for the examination of the prospectus

Our responsibility is to plan and perform our examination in a manner that allows us to obtain sufficient and appropriate assurance evidence for our opinion.

Our examination has been performed with a high, but not absolute, level of assurance, which means we may not have detected all material omissions in the prospectus due to error and fraud.

We apply the “Nadere voorschriften kwaliteitssystemen” (NVKS, Regulations for Quality management systems) and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our examination included e.g.:

- Identifying and assessing the risks of material omissions of information required by or pursuant to the Wft in the prospectus, whether due to errors or fraud, designing and performing assurance procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material omission resulting from fraud is higher than for one resulting from errors, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtaining an understanding of internal control relevant to the examination in order to design assurance procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control of the manager of the alternative investment fund

1 DEFINITIONS

- 1.1 In these Terms and Conditions, except where terms are expressly defined herein, capitalized terms shall have the same meaning given to them in the Prospectus of Privium Sustainable Impact Fund.
- 1.2 Reference in these Terms and Conditions to any law, statute or statutory instrument or governmental regulation shall be deemed to include any modification, amendment, extension or re-enactment thereof.
- 1.3 References in these Terms and Conditions to "persons" are references to companies, corporations, unincorporated associations, partnerships, all other (corporate) entities (*rechtspersonen*) as well as individuals and natural persons (*natuurlijke personen*).
- 1.4 In these Terms and Conditions the masculine shall include the feminine and the neuter and the singular shall include the plural and vice versa as the context shall admit or require.
- 1.5 In these Terms and Conditions the headings used are for ease of reference only and shall not be deemed to form any part of these Terms and Conditions.

2 NAME, LEGAL FORM, TAX AND REGULATORY STATUS

- 2.1 The name of the Fund is: Privium Sustainable Impact Fund.
- 2.2 The Fund is a fund for joint account (*fonds voor gemene rekening*) organised and existing under the laws of the Netherlands.
- 2.3 The Fund is an investment fund (*beleggingsfonds*) as referred to in article 1:1 of the FSA. The Fund Manager is in possession of an AFM license as referred to in article 2:65(1)(a) FSA, and as a consequence may offer the Fund to professional and non-professional investors within the Netherlands. The Fund Manager is subject to conduct of business and prudential supervision by the AFM and DNB.
- 2.4 The Fund is under Dutch law not a legal entity nor a partnership, commercial partnership or limited partnership (*maatschap, vennootschap onder firma or commanditaire vennootschap*), but a contractual arrangement sui generis between the Fund Manager, the Legal Owner and each of the Participants separately, governing the assets and liabilities acquired or assumed by the Fund Manager or the Legal Owner for the account and risk of the Participants.
- 2.5 These Terms and Conditions form part of the contractual relationship existing between the Fund Manager, the Legal Owner and each Participant (separately) originating from the execution of the Participant's Subscription Form.
- 2.6 These Terms and Conditions do not form an agreement between any or all Participants among themselves and are not (otherwise) aimed at any cooperation among or between any or all Participants and no provision of these Terms and Conditions shall constitute or be interpreted as constituting any right or obligation existing between any or all Participants vis-à-vis each

other or as a cooperation agreement (*samenwerkingsovereenkomst*) between the Fund Manager, the Legal Owner and any of the Participants.

- 2.7 A Participant's obligation to pay a consideration for Participations is a commitment (*verbintenis*) to the Legal Owner (represented by the Fund Manager) only. This commitment is no contribution (*inbreng*) or commitment to make contribution to any partnership.
- 2.8 The Fund should be eligible for the status of a fiscal investment institution (*fiscale beleggingsinstelling*). This implies that profits realized are taxed at a zero percent corporate income tax rate, whereas the (mandatory) distribution of such profits to the Participants leads to an obligation for the Fund to withhold 15% dividend tax (subject to a specific payment credit mechanism for underlying withholding taxes).

3 TERM

The Fund is formed for an indefinite period of time but shall terminate upon the occurrence of any of the events set forth in Article 24.1.

4 FUND OBJECTIVE, INVESTMENT STRATEGY, INVESTMENT RESTRICTIONS

- 4.1 The Fund's objective is to achieve impact and long term capital growth by making sustainable impact investments.
- 4.2 To achieve this objective, the strategy of the Fund is to invest in a diversified portfolio of listed and unlisted Investment Funds, Investee Companies and fixed income instruments. The Fund will have exposure in both developed countries and emerging markets and shall be focused on Sustainable impact investments.
- 4.3 If the Fund holds investments denominated in currencies other than the Euro, this entails a foreign exchange risk. The Fund Manager may therefore hedge foreign exchange risks if it considers this to be in the interest of the Fund.
- 4.4 The Fund may enter into any investment, divestment or other business transaction with any other funds managed by the Fund Manager or Affiliates of the Fund Manager or advised by the Delegate or with related party funds on the terms and conditions as applicable under the relevant funds' documentation. Notwithstanding the foregoing, investments of a fund managed by the Fund Manager or Affiliates of the Fund Manager shall not be transferred to another fund managed by the Fund Manager or Affiliates of the Fund Manager.
- 4.5 The Fund targets a minimum of ten (10) and a maximum of seventy-five (75) investments.
- 4.6 The Fund will not have exposure to any one investment exceeding 20% of the assets of the Fund.
- 4.7 The Fund will not invest in Investment Funds (i) which do not offer redemptions on at least a quarterly basis; (ii) which have a redemption notice period of more than two (2) months, for Investment Funds with a quarterly redemption frequency; and (iii) which have a redemption

notice period of more than three (3) months, for Investment Funds with a monthly redemption frequency.

- 4.8 The Fund Assets may be pledged to the Custodian to borrow against the Fund Assets, only for bridge financing purposes and limited to 10% of the assets managed. The Fund Manager is not allowed to lend any of the Fund Assets to a third party.
- 4.9 Deviation from the above restrictions is temporarily allowed during a portfolio rebalancing.

5 MANAGEMENT AND ADMINISTRATION, LIABILITY OF THE FUND MANAGER

- 5.1 The Fund Manager is charged with the management and administration of the Fund. The Fund Manager is, subject to these Terms and Conditions, entitled and authorised (i) to acquire (*verkrijgen*) and to dispose of (*beschikken over*) Fund Assets and to enter into and assume Fund Obligations in the name of the Legal Owner for the account and risk of the Participants, and (ii) to perform any and all other acts in its own name or in the name of the Legal Owner for the account and risk of the Participants which are reasonably necessary for or conducive to the attainment of the Fund Objectives. The Fund Manager's authority to act in the Legal Owner's name shall be subject to a power of attorney granted to the Fund Manager.
- 5.2 In the performance of its obligations and in the exercise of its rights, powers and authorities hereunder, the Fund Manager shall exercise the standard of care, skill, prudence and diligence under the circumstances then prevailing that a prudent (*zorgvuldig*) person acting in a like capacity and familiar with such matters would use in the conduct of managing an investment fund of like character, risk profile and Fund Objectives as the Fund, having regard to the provisions hereof.
- 5.3 In managing and administering the Fund, the Fund Manager shall act solely in the interest of the Participants. The management and administration of the Fund shall be performed for the account and risk of the Participants. Benefits and/or losses resulting therefrom shall consequently be for the benefit of or be borne by the Participants, without prejudice to the provisions of Article 11.3.
- 5.4 The Fund Manager shall only be liable towards the Participants for a loss suffered by them in connection with a breach of Fund Manager's duties and responsibilities under the Fund Documents that is attributable to it (*toerekenbare tekortkoming in de nakoming*).
- 5.5 The Fund Manager may contract other third parties in the exercise of its powers and duties under these Terms and Conditions and shall exercise reasonable prudence (*zorgvuldigheid*) in the selection of such third parties.

6 AUTHORITY TO INVEST AND ADMINISTER

- 6.1 Subject to the Fund Objective, the Investment Strategy, the Investment Restrictions and this Article 6, the Fund Manager may invest in any eligible assets and assume eligible obligations. The determination of the Fund Manager as to whether or not the assets and obligations are of

a type which may be acquired or held by or on behalf of the Fund in view of the Fund Objective, Investment Strategy and Investment Restrictions shall be conclusive.

- 6.2 It is the intention that subject only to the Investment Strategy and the Investment Restrictions and the specific restrictions mentioned herein, the Fund Manager shall have the broadest power and authority in making investments consistent with the investment powers herein provided. The Fund Manager shall have sole discretionary power to retain for as long a period as it shall think proper and to manage, convert, exchange, transfer and dispose of the Fund Assets and Fund Obligations. The Fund Manager shall have and may exercise every right and privilege pertaining to management provided that the exercise of such right or privilege is consistent with these Terms and Conditions.

7 CONFLICTS OF INTEREST

- 7.1 Except with prior approval of the Participants by Ordinary Consent, the Fund Manager (with respect to the Fund) will not, directly or indirectly:
- 7.1.1 enter into any investment, divestment or other business transaction (including, but not limited to, the hiring of service providers as referred to in Article 5.5) with the Fund Manager, the Legal Owner, any Participant or any of its or their Affiliates; or
 - 7.1.2 enter into any investment, divestment or other business transaction at non-arm's length terms and conditions.

An entity can only be appointed as successor Fund Manager in case it has obtained a regulatory license to manage investment funds (including the Fund) or makes use of a regulatory registration to do so.
- 8.5. Upon the effective date of the resignation or removal of the Fund Manager, any rights and obligations of the Fund Manager under these Terms and Conditions shall immediately cease to exist (it being understood that the Fund Manager remains entitled to its Management Fee and its reimbursements referred to in Article 18.2 to the extent allocable to an already expired period of time).
- 8.6. The Fund Manager hereby commits itself to cooperate fully in the transfer of its contractual position with the Participants, the Fund and the Depositary to a successor Fund Manager.

9 FUND ASSETS AND FUND OBLIGATIONS, THE LEGAL OWNER

- 9.1 All Fund Assets shall be legally owned by and will be administered in the name of the Legal Owner. All Fund Obligations shall be assumed by the Legal Owner as debtor. All agreements of the Fund shall be entered into in the name of the Legal Owner.
- 9.2 The Legal Owner shall acquire and hold the Fund Assets for the purpose of management and custody (*ten titel van beheer en bewaring*) for the account and risk of the Participants and will receive any income and proceeds on or originating from Fund Assets paid to it by a custodian or the underlying obligor in a capacity of agent, nominee or otherwise on behalf and for the benefit of the Participants.
- 9.3 The Legal Owner shall assume the Fund Obligations in its own name for the account and risk of the Participants, as qualified by these Terms and Conditions and without prejudice to the provisions of Article 11.3.
- 9.4 The Legal Owner shall ensure that with respect to the Fund Obligations assumed and contracts entered into in the name of the Legal Owner, it shall be explicitly stipulated that (i) the Legal Owner is acting in its capacity as Legal Owner of the Fund, and, unless the Legal Owner deems such statement in a specific contract not feasible, immaterial and/or not in the interests of the Participants, that (ii) the counterparty or counterparties undertake(s) to never seek recovery on anything other than the Fund Assets.
- 9.5 In acting as Legal Owner of the Fund, the Legal Owner shall act solely in the interests of the Participants. The Legal Owner cannot represent (*vertegenwoordigen*) or bind the Participants.
- 9.6 The Legal Owner shall only dispose of the assets held by it in custody following receipt of a statement from the Fund Manager that such delivery is required in connection with the regular performance of management duties.
- 9.7 The Legal Owner shall only dispose of the assets held by it in custody with the cooperation of the Fund Manager; for this purpose the Legal Owner hereby grants a power of attorney to the

- 9.8 The Legal Owner shall only be liable towards the Participants for a loss suffered by them in connection with a breach of Legal Owner's duties and responsibilities under the Fund Documents that is attributable to it (*toerekenbare tekortkoming in de nakoming*).

10 RESIGNATION OF THE LEGAL OWNER

- 10.1 The Legal Owner shall resign, without any further action of any party being required:

10.1.1 with immediate effect upon its bankruptcy (*faillissement*) or dissolution (*ontbinding*) or upon the Legal Owner having been granted suspension of payments (*surséance van betaling*); and

10.1.2 upon the provision of sixty (60) calendar days' notice to the Fund Manager, the Depositary and Administrator,

it being understood that no resignation of the Legal Owner shall be effective before the appointment of a successor legal owner, whether or not on a temporary basis, in accordance with the provisions of Article 10.2 has become effective.

- 10.2 Following or in anticipation of the resignation of the Legal Owner, the Participants shall no later than fifteen (15) calendar days after the date of occurrence of the event causing the resignation by resolution taken by Ordinary Consent appoint a substitute legal owner. As long as no successor legal owner has been appointed, the person or entity designated for that purpose by the Fund Manager shall temporarily act as legal owner of the Fund.

- 10.3 The Legal Owner hereby commits itself to cooperate fully in the transfer of its contractual position and all Fund Assets and Fund Obligations held by or registered in the name of the Legal Owner to a successor legal owner. In particular, the Legal Owner hereby (i) commits in advance to transfer all Fund Assets and Fund Obligations to the successive legal owner and to carry out all necessary in rem acts and other acts, and (ii) grants irrevocable power of attorney to the Fund Manager to in its name perform all acts referred to in or conducive to what is stated sub (i) of this Article 10.3.

11 PARTICIPANTS, RIGHTS AND OBLIGATIONS OF THE PARTICIPANTS

- 11.1 Each Participant shall, subject to the qualifications set forth in these Terms and Conditions, be beneficially entitled to the Fund Assets and Fund Obligations and any income generated thereon pro rata the number of its Participations.

- 11.2 Each Participant shall be bound by and subject to these Terms and Conditions by submitting a signed Subscription Form to the Fund Manager. Each Participant will be provided with a copy of these Terms and Conditions.

- 11.3 The liability of a Participant vis-à-vis the Fund will be limited to the amount of the Total Subscription Amount due by the Participant in respect of its Participations to the extent not

previously paid to the Legal Owner, but notwithstanding its liability by virtue of the law and these Terms and Conditions for its default on any of its obligations under these Terms and Conditions and its Subscription Form. The Participants shall not be liable for the Fund Manager's obligations, the Legal Owner's obligations or the Fund Obligations.

12 MEETINGS OF PARTICIPANTS, RESOLUTIONS OF PARTICIPANTS

- 12.1 Meetings of Participants will only be held when called by the Fund Manager. The Fund Manager must call a meeting of Participants (i) as often as the Fund Manager deems necessary in the interest of the Participants, and (ii) in case one (1) or more Participants holding, in total, at least 25% of the outstanding Participations request the Fund Manager in writing to call and hold such meeting, stating the matters to be placed on the agenda for such meeting, in which case the meeting must be held within fourteen (14) days after the date of the request.
- 12.2 The agenda for a meeting of Participants shall be determined at the sole discretion of the Fund Manager or, as the case may be, the Participant(s) who requested the Fund Manager to hold the meeting in accordance with the second sentence of Article 12.1. No valid resolutions can be taken on subjects not mentioned on the agenda unless such resolution is taken by unanimity of votes of all Participants.
- 12.3 Notice for a meeting of Participants will be published on the Fund Manager's website and sent to the (e-mail) addresses of the Participants in accordance with the provision of Article 27.1 at least fourteen (14) calendar days prior to the date of the meeting of Participants. Such notice will state the date, time, place and location and the agenda for the meeting and enclose any documents relevant for the meeting.
- 12.4 With any request of the Fund Manager for consent or approval by the Participants, the Fund Manager will prepare a memorandum providing background information on the matter. The memorandum will be sent to the Participants not later than simultaneously with the convocation.
- 12.5 A Participant may participate in a meeting by telephone. Meetings of Participants may be held by conference call unless a majority of the Participants in a specific case oppose against the holding of the meeting by conference call. Resolutions taken at such meeting need after the meeting to be confirmed in writing by the applicable majority of Participants in order to be valid.
- 12.6 A Participant may authorise (*volmachtigen*) another Participant or other person to attend a meeting of Participants (or participate in a meeting of Participants by telephone), to address the meeting and to vote at the meeting provided that the relevant power of attorney is validly set forth in a written document submitted prior to the meeting to the chairman of the meeting.
- 12.7 The Fund Manager shall appoint a chairman of the meetings of Participants unless the meeting is called at the request of one or more of the Participants in which case the requesting Participant(s) shall appoint the chairman of the meeting. The chairman shall be responsible for determining the procedure to be adopted for the conduct of any meeting of Participants.

- 12.8 Each Participant may cast one (1) vote per Participation. Blank votes will be deemed not to have been cast.
- 12.9 The Fund Manager or such other person designated by the chairman of the meeting shall record all votes taken during conference calls or at meetings of Participants and maintain a copy of consents obtained in writing, by facsimile, or by e-mail. Detailed voting records should promptly be made available by the Fund Manager to any Participant upon request.
- 12.10 The Fund Manager, or such other person designated by the chairman of the meeting will keep minutes of the meetings of Participants. The draft minutes will be distributed to all Participants within thirty (30) days after the date of the meeting and submitted for approval at the next meeting of Participants.
- 12.11 The Participants may also adopt resolutions outside a meeting, or in a meeting for which notice was given less than fourteen (14) calendar days prior to the meeting date, in which case resolutions shall be adopted in writing, provided that the proposed resolutions are submitted to all Participants and none of them objects to the proposed manner of adopting resolutions.

13 PARTICIPATIONS, REGISTER

- 13.1 Participations are rights registered in the name of the Participants. Participation certificates shall not be issued.
- 13.2 The Administrator shall keep the Register. The Fund Manager shall sign all entries to the Register.
- 13.3 The Administrator and the Fund Manager may rely on the accuracy of the information provided by each Participant for inclusion in the Register and treat such information as conclusive with respect to such Participant and its entitlement to its Participations. The Administrator and the Fund Manager shall not be bound:
- 13.3.1 by any change in such information which has not been notified to the Fund Manager in accordance with Article 13.4 hereof; or
 - 13.3.2 to recognise any interest or claim of any person to a Participation other than those of the Participant duly registered in the Register as holder of these rights.
- 13.4 Each Participant shall notify the Administrator promptly by written notice of any change in the information included in the Register in relation to such Participant. The Administrator shall upon receipt of such notice cause the Register to be amended accordingly within ten (10) Business Days.
- 13.5 Upon written request to that effect by the Participant to the Fund Manager, the Register shall be available at the Fund Manager's office for the inspection of each Participant on Business Days, but only in so far as it concerns the Participant's own entry. Any costs related hereto shall be charged to the relevant Participant.

- 13.6 The Fund Manager may provide information included in the Register to tax, regulatory or other authorities if, in the Fund Manager's reasonable opinion, this is required, necessary, conducive to or in the interest of the Legal Owner, the Fund or any of the Participants, including but not limited for the application of tax treaties between the jurisdiction of source of any income or gain and the jurisdiction of residence of a Participant respectively the Netherlands. Each Participant shall at the written request of the Fund Manager provide the Fund Manager with such information and documentation as the Fund Manager may in all reasonableness require from the Participant in support of the Fund Manager's duty and right referred to in the preceding sentence.

14 SUBSCRIPTIONS

- 14.1 The Fund Manager may at its sole discretion, but notwithstanding the further provisions of these Terms and Conditions, resolve to issue new Participations at the request of a new or existing Participant set forth in a Subscription Form or decide to temporarily discontinue or indefinitely stop the issuance of Participations.
- 14.2 The price of issuance of a Participation shall be equal to the Subscription Price. The Fund Manager shall determine the Total Subscription Amount due by the subscriber and the further conditions of the issuance.
- 14.3 In the Subscription Form as completed by a subscribing investor shall inter alia be set forth the Total Subscription Amount for which the subscriber requests issuance of Participations. The Fund Manager may at its sole discretion resolve to refuse or to only partly accept a subscription for Participations.
- 14.4 Completed applications are irrevocable once received by the Administrator. If the Subscription Notice Date falls: (i) prior to or on the twenty-fifth (25th) day of a month, the Valuation Date of the Participations subscribed for shall be the last day of that month; (ii) after the twenty-fifth (25th) day of a month, the Valuation Date of the Participations subscribed for shall be the last day of the following month. The Determination Date of the Participations subscribed for shall be determined by the Fund Manager in its sole discretion, but shall be no later than the tenth (10th) Business Day after the Valuation Date of such Participations. The Settlement Date of the Participations subscribed for shall be the third (3rd) Business Day after such Determination Date. Participations subscribed for shall be issued on such Settlement Date.
- 14.5 Participations shall be issued by the Legal Owner and acquired by the Participants on a Settlement Date but the Participations subscribed for will not be issued if the Total Subscription Amount with respect to Participations subscribed for due by the subscriber has not been received by the Legal Owner.
- 14.6 If so requested by the subscriber on its Subscription Form, the Fund Manager may at its sole discretion agree that the Participations subscribed for by the subscriber and accepted by the Fund Manager will be paid-up in kind, as valued based on the valuation principles of the Fund. In that case, the subscription will not be accepted before the subscriber, Fund Manager and the Legal Owner have reached agreement on (i) the value, or the valuation method(s) to be used in

the determination of the value, to be attributed to the in kind contribution, (ii) the timing and further details of the transfer to the Fund of the in kind contribution and the corresponding issuance of Participations to the subscriber, and (iii) any fees the Fund may charge to the subscriber as reimbursement of costs incurred by the Fund in connection with the in kind contribution.

- 14.7 Immediately upon the completion of the issuance of new Participations, the Fund Manager shall procure that the appropriate entries are made in the Register.

15 REDEMPTION OF PARTICIPATIONS

- 15.1 The Fund is obliged to, subject to this Article 15 and the further provisions of these Terms and Conditions, redeem Participations at the request of a Participant set forth in a Redemption Notice. Any and all Participations that are redeemed shall not be held by the Legal Owner or the Fund Manager but shall be automatically cancelled.
- 15.2 The price of redemption of a Participation shall be equal to the Redemption Price. The Fund Manager shall determine the Total Redemption Amount.
- 15.3 In the Redemption Notice as completed by a Participant shall inter alia be set forth the Total Redemption Amount for which the Participant requests redemption of Participations or the number of the Participations to be redeemed.
- 15.4 Participations shall be redeemed by the Fund on Settlement Dates, provided the requirements of the Terms and Conditions have been met. Redemption of Participations as referred to in Article 16.1 may be effected at all times.
- 15.5 Participants need to ensure that a signed Redemption Form Notice will be received by the Administrator on the first (1st) day of the month prior to the relevant Valuation Date of the Participations redeemed. If the Redemption Notice Date falls: (i) prior to or on the first (1st) day of a month, the Valuation Date of the Participations redeemed shall be the last day of that month. Example: redemptions received on September 1 or prior will be redeemed against the NAV of the September 30 Valuation Date; (ii) after the first (1st) day of a month, the Valuation Date of the Participations redeemed shall be the last day of the month immediately thereafter. Example: redemptions received on September 20 will be redeemed against the NAV of the October 31 Valuation Date. The Determination Date of the Participations redeemed shall be determined by the Fund Manager in its sole discretion, but shall be no later than the tenth (10th) Business Day after the Valuation Date of such Participations. The Settlement Date of the Participations redeemed shall be the third (3rd) Business Day after such Determination Date. Completed Redemption Notices are irrevocable once received by the Administrator.
- 15.6 The Total Redemption Amount will be paid to the redeeming Participant on the Settlement Date of the Participations redeemed, unless exceptional circumstances occur, in which case the Total Redemption Amount will be paid at the earliest possible Business Day thereafter.
- 15.7 Requests for redemption may be refused in case anti-money laundering verification procedures so require.

15.8 The Legal Owner and the Fund Manager may limit the redemption of Participations on a Settlement Date to an aggregate Total Redemption Price of twenty per cent (20%) (or more, as long as such higher gate is not to the detriment of the remaining Participants) of the Net Asset Value on the Valuation Date prior to the Settlement Date. In this case, the number of Participations to be redeemed per Unitholder Participant will be pro rata the total number of Participations offered for redemption. Any Participations included in a redemption request that have not been redeemed as a result of such scale down of a redemption request are deemed to be offered for redemption on the following Settlement Date on a pro rata basis alongside subsequent redemption requests (but not compulsory redemptions) and shall be subject to the same limitations.

15.9 The Fund Manager may suspend redemption of Participations if:

15.9.1 the determination of the Net Asset Value has been suspended in accordance with Article 20.3;

15.9.2 the transfer of funds realised from the sale of Fund Assets cannot, in the sole opinion of the Fund Manager, be effected at normal rates of exchange;

15.9.3 relevant exchanges are not open for business or the sale of Fund Assets is otherwise restricted or suspended;

15.9.4 a state of affairs exists which constitutes a state of emergency as a result of which the sale of Fund Assets would, in the sole opinion of the Fund Manager, not be practical or would negatively affect the rights of other Participants;

15.9.5 the Participant did not act in compliance with applicable legislation or these Terms and Conditions;

15.9.6 for whatever reason, the valuation of Fund Assets or Fund Obligations to be sold cannot be promptly or accurately ascertained; or

15.9.7 for whatever reason, the redemption of Investee Funds Interests is suspended at the level of the relevant Investee Fund, as applicable.

15.10 If the Fund Manager suspends the repurchase or redemption of the Participations, it shall inform the Participants and the AFM of such suspension without delay.

15.11 Immediately upon completion of the redemption of Participations, the Fund Manager shall procure that the necessary amendments are made to the Register.

15.12 The Legal Owner and the Fund Manager may delegate any or all part of their duties and responsibilities under this Article 15 to the Administrator.

16 MANDATORY REDEMPTION OF PARTICIPATIONS

16.1 The Fund Manager and the Legal Owner shall be entitled to redeem all (but not part of) the Participations of any Participant:

- 16.1.1 if the Participant is dissolved, becomes insolvent, is unable to pay its debts, institutes or has instituted against it a proceeding seeking a judgment of insolvency or bankruptcy, any other relief under any bankruptcy, insolvency or similar law;
 - 16.1.2 if in the Fund Manager's reasonable opinion the tax position of the Legal Owner, the Fund or any of the other Participants is or will become negatively affected due to the tax status or position or any change therein of the relevant Participant or any other circumstance concerning such Participant;
 - 16.1.3 if, for whatever reason, the continuation of the relationship cannot reasonably be expected from the Fund Manager and/or Legal Owner; or
 - 16.1.4 if the management board of an Investee Fund proceeds with compulsory redemption of the relevant Investee Funds Interests, as applicable.
- 16.2 Each Participant agrees that it shall immediately notify the Fund Manager if any status, position or change therein as referred to in Article 16.1.1 occurs in its respect or if it becomes aware of circumstances in all reasonableness qualifying as circumstances as referred to in Article 16.1.2 or Article 16.1.3 in its respect.
- 16.3 Upon redemption of Participations in accordance with the provisions of Article 16.1 the Participant will be entitled to receive a Total Redemption Amount determined by the Fund Manager on the basis of the most recent determined Net Asset Value.
- 16.4 Immediately upon completion of the redemption of Participations, the Fund Manager shall procure that the necessary amendments are made to the Register.

17 TRANSFER AND ENCUMBRANCE OF PARTICIPATIONS

- 17.1 A Participant may sell, donate, exchange, assign, transfer, encumbrance to or in favour of any reputable person all or some of such Participant's Participations provided that all of the following conditions have been met:
- 17.1.1 the Fund Manager has approved the envisaged transfer or encumbrance, such approval not to be unreasonably withheld;
 - 17.1.2 the transferee or the pledgee, to the satisfaction of the Fund Manager, has agreed to be bound, as a Participant, by these Terms and Conditions.
- 17.2 Any transfer of Participations will be effective only if set forth in a duly signed and executed transfer form.
- 17.3 Immediately upon completion of the redemption of Participations, the Fund Manager shall procure that the necessary amendments are made to the Register.
- 17.4 Any transfer, assignment or encumbrance of Participations in violation of this Article 17 shall be null and void.

18 FEES AND EXPENSES

 - 18.1.4 Organisational Expenses;
 - 18.1.5 the Management Fee; and
 - 18.1.6 all fees in connection with the compliance by the Fund and the Fund Manager in its capacity of the manager of the Fund with the AIFMD related legislation.
- 18.2 To the extent that the Fund Manager pays or otherwise bears any costs or expenses on behalf of the Fund that are pursuant to Article 18.1 to be borne by the Fund, the Fund shall reimburse the Fund Manager for the same.
- 18.3 Costs, fees and expenses that are not explicitly assumed by the Fund pursuant to Article 18.1 shall not be borne by the Fund. For the avoidance of doubt, the Fund shall not bear the cost of remunerating any employee of the Fund Manager or any of its Affiliates or any office rental, utilities or office equipment or other overhead or travel costs of any of their respective personnel, it being acknowledged that the Management Fee is intended to compensate the Fund Manager for such costs.
- 18.4 The Fund Manager is entitled to an annual Management Fee equal to 0.30% of the Net Asset Value (i.e. 30 basis points) excluding (i.e. before deduction of) the Management Fee, as at the last calendar day of each month, with a minimum of EUR 110,000 per annum, payable monthly in arrears out of the Fund Assets. The Delegate is entitled to an annual delegation fee of 0.20% (20 basis points) payable by the Fund Manager out of the Management Fee. No delegation fees are directly borne by the Fund. Any changes to the Management Fee are subject to prior approval of the Fund Manager and the Legal Owner.

19 VALUATION PRINCIPLES

- 19.1 The Fund Manager has delegated the calculation of the Net Asset Value to the Administrator. The Net Asset Value shall be based on the value of the Fund Assets and Fund Obligations in accordance with Dutch GAAP and, where more specific, the following valuation methods:

- 19.1.1 securities regularly listed on a stock exchange shall be valued at the most recent price delivered by reputable data vendors, including without limitation Bloomberg, Reuters, Fact Set and Financial Times;
- 19.1.2 securities for which no daily price is calculated shall be valued on the basis of the most recent official price, unless the Fund Manager (or Administrator as delegated party) is of the opinion that this price does not correspond with the actual value of the security in question, in which case the Fund Manager (or Administrator as delegated party) can determine the value itself on the basis of all available information;
- 19.1.3 securities which are neither listed nor quoted on any securities exchange or similar electronic system or if, being so listed or quoted, are not regularly traded thereon or in respect of which no prices as described above are available, will be valued at their probable realisation value as determined by the Fund Manager (or Administrator as delegated party) in good faith having regard to its cost price, the price at which any recent transaction in the security may have been effected, the size of the holding having regard to the total amount of such security in issue, and such other factors as the Fund Manager (or Administrator as delegated party) deems relevant in considering a positive or negative adjustment to the valuation;
- 19.1.4 investments, other than securities, which are dealt in or traded through a clearing firm or an exchange or through a financial institution will be valued by reference to the most recent official settlement price quoted by that clearing house, exchange or financial institution. If there is no such price, then the average will be taken between the lowest offer price and the highest bid price at the close of business on any market on which such investments are or can be dealt in or traded, provided that where such investments are dealt in or traded on more than one market, the Fund Manager (or Administrator as delegated party) may determine in its sole discretion which market shall prevail;
- 19.1.5 investments, other than securities, which are not dealt in or traded through a clearing firm or an exchange or through a financial institution will be valued on the basis of the latest available valuation provided by the relevant counterparty;
- 19.1.6 deposits will be valued at their cost plus accrued interest;
- 19.1.7 investments in Investee Funds will be valued on the basis of the latest available valuation of Investee Funds Interests provided by the administrators of the relevant Investee Funds;
- 19.1.8 all other Fund Assets and Fund Obligations shall be valued on the basis of current fair value, subject to the most recent market quotations and customary valuation methods that apply for the relevant Fund Asset or Fund Obligation; and

- 19.1.9 all Fund Assets and Fund Obligations denominated in foreign currency shall be converted into Euro in accordance with the currency exchange rate prevailing at the close of business of last calendar day of the relevant month.
- 19.2 If the Fund Manager disagrees with the Net Asset Value and/or the Net Asset Value per Participation as determined by the Administrator, other than for the reasons of there being a mistake in the data feed, the Depositary will be consulted with respect to the determination of such Net Asset Value and the Net Asset Value per Participation. If the Depositary agrees with the Net Asset Value and the Net Asset Value per Participation as determined by the Administrator and contested by the Fund Manager, an independent auditor shall be selected by the Administrator and the Fund Manager to determine such Net Asset Value and the Net Asset Value per Participation.
- 19.3 The valuation shall be performed in accordance with article 19 AIFMD.

Sustainable investment objective

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of environmentally sustainable economic activities. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

What is the sustainable investment objective of this financial product?

The objective of the Privium Sustainable Impact Fund (PSIF) is to achieve positive and measurable impact alongside long term capital growth by making sustainable impact investments. The Fund invests in a diversified portfolio of listed and unlisted Investment Funds, Investee Companies and fixed income instruments with the intent to contribute to measurable positive social, and environmental impact alongside financial returns.

- *What sustainability indicators are used to measure the attainment of the sustainable investment objective of this financial product?*

PSIF has a multi-thematic approach, meaning an investment is categorized under a main ESG theme. The ESG themes currently being targeted are: *Social Objectives* - Financial Inclusion, Education and Social Impact; *Environmental Objectives*-Renewable Energy and Natural Capital.

Each theme contributes to several UN Sustainable Development Goals (SDGs). The impact of the Fund is measured on each SDG using impact key performance indicators. The table below provides an overview of the SDG target, its Key Performance Indicator and the way the impact is measured.

How do sustainable investments not cause significant harm to any environmental or social sustainable investment objective?

How have the indicators for adverse impacts on sustainability factors been taken into account?

The investment process takes principal adverse impact on sustainability factors into account. PSIF is addressing the PAIs as follows:

Negative screening/exclusions

Positive screening/investment objective alignment/SDG alignment

Quality investigation (of the manager's commitments, reporting, targets, policies)

Depending on the underlying investment and ESG theme, different aspects are considered. The table below is not exhaustive and may change over time.

	<i>Investee companies / assets/ projects</i>				
GHG emissions	<i>1. GHG Emissions</i>	Exclusion: Non-taxonomy aligned fossil fuel energy generating assets. Positive screening: Share of renewable energy, energy efficiency and energy storage assets and other climate mitigation assets.	For Financial inclusion, where main aim is to reduce poverty, GHG emissions become of second-hand order. Nevertheless, some minimum safeguards need to be in place. Exclude: Non-taxonomy aligned fossil fuel generating assets.	Same as for Financial inclusion funds.	Not applicable: Education notes is about financing students' education, therefore deemed not to have any significant adverse impact on environment.

What investment strategy does this financial product follow?

The strategy of the Fund is to invest in a diversified portfolio of listed and unlisted Investment Funds, Investee Companies and fixed income instruments.

What are the binding elements of the investment strategy used to select the investments to attain the sustainable investment objective?

The alignment with the impact investment objective of the Fund drives the initial screening of a potential investment. Investments that do not aim to significantly contribute to at least one SDG, are excluded from the investable universe. Then, PSIF's minimum criteria are applied:

- 1: For funds domiciled in the EU, funds must be classified as SFDR article 9.
- 2: Funds not falling under SFDR, such as funds domiciled outside the EU, can nevertheless have a sustainability objective. PSIF can invest in such funds if they 1) align with the sustainable investment objective, 2) match the definition of sustainable investment based on the Fund's sustainability due diligence.
- 3: All funds that PSIF invests in must be signatories of, or conform with, UNPRI. This can be at fund company level or investment manager level.
- 4: All investee funds must comply with the exclusion list of PSIF.
5. All investee funds must be able to fulfil the reporting requirements of PSIF.

What is the policy to assess good governance practices of the investee companies?

PSIF investigates the governance quality of the companies, organizations, vehicles, and funds managing the ultimate investments. This analysis is based on a combination of international standards from the UN Principles for Responsible Investment (UNPRI), UN Global Compact, the OECD Guidelines for Multinational Enterprises the UN Guiding Principles on Business and Human Rights and the Sustainability Accounting Standards Board (SASB). Focus points for the analyses conducted include employee engagement, diversity & inclusion; business ethics; operational and manager quality.

The investment strategy guides investment decisions based on factors such as investment objectives and risk tolerance.

Good governance practices include sound management structures, employee relations, remuneration of staff and tax compliance.
